M. Ballantyne, 2017-06-22 CHAPTER I THE ROCK Early on a summer morning about the beginning of the nineteenth century two fishermen of Forfarshire wended their way to the shore launched their boat and put off to sea One of the men was tall and ill favoured the other short and well favoured Both were square built powerful fellows like most men of the class to which they belonged It was about that calm hour of the morning which precedes sunrise when most living creatures are still asleep and inanimate nature wears more than at other times the semblance of repose The sea was like a sheet of undulating glass A breeze had been expected but in defiance of expectation it had not come so the boatmen were obliged to use their oars They used them well however insomuch that the land ere long appeared like a blue line on the horizon then became tremulous and indistinct and finally vanished in the mists of morning The men pulled with a will as seamen pithily express in silence Only once during the first hour did the ill favoured man venture a remark Referring to the absence of wind he said that it would be a the better for landin on the rock This was said in the broadest vernacular dialect as indeed was everything that dropped from the fishermen s lips We take the liberty of

modifying it a little believing that strict fidelity here would entail inevitable loss of sense to many of our readers The remark such as it was called forth a rejoinder from the short comrade who stated his belief that they would be likely to find somethin there that day They then relapsed into silence Under the regular stroke of the oars the boat advanced steadily straight out to sea At first the mirror over which they skimmed was grey and the foam at the cutwater leaden coloured By degrees they rowed as it were into a brighter region The sea ahead lightened up became pale yellow then warmed into saffron and when the sun rose blazed into liquid gold The words spoken by the boatmen though few were significant The rock alluded to was the celebrated and much dreaded Inch Cape more familiarly known as the Bell Rock which being at that time unmarked by lighthouse or beacon of any kind was the terror of mariners who were making for the firths of Forth and Tay The something that was expected to be found there may be guessed at when we say that one of the fiercest storms that ever swept our eastern shores had just exhausted itself after strewing the coast with wrecks The breast of ocean though calm on the surface as has been said was still heaving with a mighty swell from the effects of the recent elemental conflict D ye see the breakers noo Davy enquired the ill favoured man who pulled the aft oar Ay and hear them too said Davy Spink ceasing to row and looking over his shoulder towards the seaward horizon Yer een and lugs are better than mine then returned the ill favoured comrade who answered when among his friends to the name of Big Swankie otherwise and more correctly Jock Swankie
