argues should influence daily economic life especially within what he calls hybrid firms which make a profit and invest a share of that profit in service to needs outside the firm Similarly development whether of an individual or of a nation must be integral neither simply economic nor personal nor psychological nor spiritual but a comprehensive development that engages all dimensions of a flourishing human life The essays written by social scientists theologians policy analysts and others engage extend and critique Benedict's views on these issues as well as his call for deeper dialogue and a morally based transformation of social and economic structures

Spirituality in the Biomedical World Guy Jobin, 2020-06-22 The need to take the spiritual experience during illness into account is part of a broader trend in Western societies a fascination with the practical uses of spirituality and its contribution to individual wellbeing whether through a religious or a humanist tradition This understanding of spirituality differs from traditional views embedded in religious traditions This book takes a critical point of view at the biomedical representation of the function of spirituality in care Medicine reorders notions such as life death health sickness and spirituality This process is called here sapientialization i.e. the spiritual experience is expressed and understood under the auspices of and in terms of wisdom This view tends to identify spirituality and ethics I propose an alternate understanding of spirituality grounded on its subversive power Inspired by the work of the theologian John D. Caputo it is critical of some problems that are associated with the sapientialization of spirituality in biomedicine such as the medicalization of spiritual experiences or the instrumentalization of spirituality It provides an understanding of spirituality that honours both the medical interest in it and its capacity to resist to instrumentalization

The Marketization of Religion François Gauthier, Tuomas Martikainen, 2020-09-10 The Marketization of Religion provides a novel theoretical understanding of the relationship between religion and economy of today's world A major feature of today's capitalism is marketization While the

importance that economics and economics related phenomena have acquired in modern societies has increased since the consumer and neoliberal revolutions and their shock waves worldwide social sciences of religion are still lagging behind acknowledging the consequences of these changes and incorporating them in their analysis of contemporary religion Religion as many other social realities has been traditionally understood as being of a completely different nature than the market Like oil and water religion and the market have been mainly cast as indissoluble into one another Even if notions such as the marketization commoditization or branding of religion and images such as the religious and spiritual marketplace have become popular some of the contributions aligned in this volume show how this usage is mostly metaphorical and at the very least problematic What does the marketization of religion mean The chapters provide both theoretical and empirical discussion of the changing dynamics of economy and religion in today s world Through the lenses of marketization the volume discusses the multiple at times surprising connections of a global religious reformation Furthermore in its use of empirical examples it shows how different religions in various social contexts are reformed due to growing importance of a neoliberal and consumerist logic This book was originally published as a special issue of the journal Religion *In Our Own Words* Juliet Mousseau, Sarah Kohles, 2018-01-12 Written by a diverse group of younger women religious from North America In Our Own Words offers a collection of essays on issues central to apostolic religious life today The thirteen authors represent different congregations charisms ministries and histories The topics and concerns that shape these chapters emerged naturally through a collaborative process of prayer and conversation Essays focus on the vows and community life individual identity and congregational charisms and leadership among younger members leading into the future The authors hope these chapters may form a springboard for further conversation on religious life inviting others to share their experiences of religious life in today s world *What does it mean to be 'Indian'?* S.N. Balagangadhara, Sarika Rao, 2021-09-04 Why ask this question today After all a lot is written about India her culture her past her society the psychology and sociology of individuals and groups Why is that not enough It is because what we have learnt so far is either false or fragmentary If Indian culture is not a slightly inferior slightly idiosyncratic variant of Western culture as the received view has it for a very long time what else is it Research into culture and cultural differences gives novel and surprising answers Written for an intelligent but lay public this book shares the results of 40 years of scientific investigations in the research programme Comparative Science of Cultures It transcends the political distinction between the right and the left by looking deeper into ideas on human beings society culture experience the past impact of colonialism etc Today the question What does it mean to be Indian is both important and difficult to answer Is there something Indian about this culture that goes beyond the differences between Hindus Muslims Christians Sikhs or Jains What does it überhaupt mean to belong to Indian culture *Organizational Innovation by Integrating Simplification* Sharda S.
