Schaffner, 2019-06-11 A probing and prescient consideration of writing as an instrument of punishment Writing tends to be characterized as a positive aspect of literacy that helps us to express our thoughts to foster interpersonal communication and to archive ideas However there is a vast array of evidence that emphasizes the counterbelief that writing has the power to punish shame humiliate control dehumanize fetishize and transform those who are subjected to it In Writing as Punishment in Schools Courts and Everyday Life Spencer Schaffner looks at many instances of writing as punishment including forced tattooing drunk shaming court ordered letters of apology and social media shaming with the aim of bringing understanding and recognition to the coupling of literacy and subjection Writing as Punishment in Schools Courts and Everyday Life is a fascinating inquiry into how sinister writing can truly be and directly questions the educational ideal that powerful writing is invariably a public good While Schaffner does look at the darker side of writing he neither vilifies nor supports the practice of writing as punishment Rather he investigates the question with humanistic inquiry and focuses on what can be learned from understanding the many strange ways that writing as punishment is used to accomplish fundamental objectives in everyday life Through five succinct case studies we meet teachers judges parents sex traffickers and drunken partiers who have turned to writing because of its presumed power over writers and readers Schaffner provides careful analysis of familiar punishments such as schoolchildren copying lines and more bizarre public rituals that result in ink covered bodies and individuals forced to hold signs in public Schaffner argues that writing based punishment should not be dismissed as benign or condemned as a misguided perversion of writing but instead should be understood as an instrument capable of furthering both the aims of justice and degradation Systemic Humiliation in America Daniel Rothbart, 2018-03-30 This volume

explores contemporary social conflict focusing on a sort of violence that rarely receives coverage in the evening news This violence occurs when powerful institutions seek to manipulate the thoughts of marginalized people manufacturing their feelings and fostering a sense of inferiority for the purpose of disciplinary control Many American institutions strategically orchestrate this psychic violence through tactics of systemic humiliation This book reveals how certain counter measures based in a commitment to human dignity and respect for every person's inherent moral worth can combat this violence

Rothbart and other contributors showcase various examples of this tug of war in the US including the politics of race and class in the 2016 presidential campaign the dehumanizing treatment of people with mental disabilities and destructive parenting styles that foster cycles of humiliation and emotional pain
