Literary Circles and Gender in Early Modern Europe Julie Campbell, 2018-01-18 A comparative analysis this study examines the interactions of early modern male and female writers within the context of literary circles In particular Campbell examines how the querelle des femmes as a discursive rhetorical tradition of praise and blame influenced perceptions of well educated women who were part of literary circles in Italy France and England from approximately 1530 to 1650 To gain a better sense of how querelle language and issues were used for or against learned women writers Campbell aligns selected works by female and male writers pairing them to analyze how the woman writer responds deflects or rewrites the male writer s ideological script on women She focuses first on the courtesan Tullia d Aragona s response in her Dialogo della infinit di amore to Sperone Speroni s Dialogo di amore and contrasts the actress writer Isabella Andreini s pastoral La Mirtilla with Torquato Tasso s Aminta She then discusses the influence of Italian actresses upon the manners and mores of French women of the Valois court especially focusing on performative aspects of French women s participation in court and salon rituals To that end she examines the influential salon of the aristocratic learned Claude Catherine de Clermont duchesse de Retz who encouraged the writing of positive querelle rhetoric in the form of Petrarchan Neoplatonic encomiastic poetry to buttress her reputation and that of her female friends Next Campbell reads Louise Lab D t de Folie et d Amour against Pontus de Tyard s Solitaire premier to illustrate the tensions between a traditional and nontraditional querelle stance She then discusses Continental influence upon English writers in the context of the Sidney circle in England Moving to the closet dramas of the Sidney circle Campbell examines the solidarity these writers demonstrated with nontraditional stances on querelle issues and finally she explores how three generations of English literary circles con

Circles of Meaning, Labyrinths of Fear Brendan Myers, 2012-03-16 You ve heard of sacred places writings relics and rituals holy days and magical times of year But these are actually representations of relationships that people have with each other and the elements of the world Some of these relationships environmental they involve landscapes animals and the streets of your home town Some are personal such as families friends and elders Some are public involving musicians storytellers medical doctors and even soldiers This book studies twenty two relationships from a variety of traditions and shows their place in the good life Yet these relations are always fragile and threatened by fears from the fear of loneliness to the fear of the loss of personal or political freedom to the fear of death To escape from these fears people often trap themselves into ways of life that are bad for everyone including themselves This book studies how that happens and how to prevent it More than beliefs laws and teachings our relationships are the true basis of spirituality and freedom

Thinking in Circles Mary

Douglas, 2007-01-01 Immanuel Kant's views on politics, peace and history have lost none of their relevance since their publication more than two centuries ago. This volume contains a comprehensive collection of Kant's writings on international relations, theory and political philosophy, superbly translated and accompanied by stimulating essays. Pauline Kleingeld provides a lucid introduction to the main themes of the volume and three essays by distinguished contributors follow: Jeremy Waldron on Kant's theory of the state, Michael W. Doyle on the implications of Kant's political theory for his theory of international relations, and Allen W. Wood on Kant's philosophical approach to history and its current relevance. **In the Room of the Circles** Federico Barbierato, 2025-09-22 This book investigates the circulation, regulation and interpretation of magical texts focusing on the Clavicula Salomonis, the Key of Solomon, one of the most sought after and feared books of the time. Drawing on inquisitorial records, trial proceedings and archival sources, Federico Barbierato uncovers how these texts were read, copied and exchanged, illuminating the blurred boundaries between religious orthodoxy, scientific inquiry and the occult. The Early Modern period was marked by a deep ambivalence toward books of magic which were revered as sources of hidden knowledge yet condemned as dangerous and subversive. Nowhere was this tension more evident than in Venice, a city where inquisitorial censorship clashed with a vibrant book culture. At the heart of this volume lies a detailed exploration of the people who interacted with magical writings: monks, exorcists, book dealers, artisans and even suspected heretics, revealing how these texts served multiple purposes from spiritual protection to financial speculation. By examining how authorities sought to suppress, reinterpret and sometimes co-opt magical knowledge, the book provides fresh insights into the dynamics of censorship, literacy and power. Barbierato moves beyond the history of forbidden books to reconstruct a network of exchanges that shaped Early Modern attitudes toward magic and heterodox knowledge. *In the Room of the Circles* will appeal to scholars and students of Early Modern history, book history, religious studies and intellectual history, as well as readers interested in the history of censorship and the relationship between knowledge and power. **Spirals and Circles** Horst S. Daemmerich, Ingrid Daemmerich, 1994 The study of themes and motifs in Western Literature has occupied the authors over two decades. They have previously presented their findings in *Wiederholte Spiegelungen: Themen und Motive in der Literatur* 1978, *Themes and Motifs in Western Literature* 1987 and *Themen und Motive in der Literatur: Ein Handbuch* 1987. Circles of Resistance John M. Cox, 2009 *Circles of Resistance: Jewish Leftist and Youth Dissidence in Nazi Germany* analyzes resistance networks of young German Jews and other young dissidents during the Nazi dictatorship. Young German Jewish radicals created an intellectually and politically vibrant subculture in Berlin, the geographical focus of this study. The youths analyzed here were reacting not only to Nazi oppression; they were also driven to develop new modes of action and politics by their estrangement not only from German society but also from the traditional left parties and their post-1933 underground organizations and even from large segments of Berlin's Jewish community where radical activism was often regarded as counterproductive and needlessly provocative. At the center of this study are the Herbert Baum groups led by members of

Germany's Communist Party KPD While the Baum groups were the largest they were but one of several resistance operations that were situated partially within the milieu created by Communists Socialists Trotskyists and radical Jewish youths Based on archival research in Germany Paris Amsterdam and Jerusalem and interviews with veterans of the anti Nazi resistance Circles of Resistance analyzes the overlap of these diverse social and political dimensions among dissident circles and offers a reconsideration of traditional thinking on leftist and Jewish resistance and youth subcultures of the Third Reich Circles of Resistance will be useful for undergraduate as well as graduate courses on Jewish history Nazi Germany and the Holocaust as well as courses devoted to the history of European socialism **Les idées en mouvement** Michel
