Proceedings of the Future Technologies Conference (FTC) 2020, Volume 1 Kohei Arai, Supriya Kapoor, Rahul Bhatia, 2020-10-30. This book provides the state of the art intelligent methods and techniques for solving real world problems along with a vision of the future research. The fifth 2020 Future Technologies Conference was organized virtually and received a total of 590 submissions from academic pioneering researchers, scientists, industrial engineers and students from all over the world. The submitted papers covered a wide range of important topics including but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their applications to the real world. After a double blind peer review process, 210 submissions including 6 poster papers have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. The authors hope that readers find the book interesting, exciting and inspiring.
