The BLDGBLOG Book Geoff Manaugh, 2009-06-10 Read by millions since its launch in 2004 BLDGBLOG is the leading voice in speculation about architecture landscape and the built environment Now The BLDGBLOG Book distills author Geoff Manaugh's unique vision offering an enthusiastic idea filled guide to the future of architecture with stunning images and exclusive new content From underground exploration to the novels of J G Ballard from artificial glaciers in the mountains of Pakistan to weather control in Olympic Beijing The BLDGBLOG Book is part conceptual travelogue part manifesto part sci fi novel according to Joseph Grima executive director of New York's Storefront for Art and Architecture BLDGBLOG is something new and substantially different from anything else I have seen says Errol Morris Director of Fast Cheap Out of Control and the Academy Award winning documentary Fog of War Secretly I had always hoped it would become a book Geoff Manaugh has provided the reader with an excursion into a new world part digital fantasy part reality at the intersection of art architecture landscape design and pure ideas Like the blog the book is personal idiosyncratic and best of all incredibly interesting

The BLDG Blog Book Geoff Manaugh, 2009 *Studies in Temporal Urbanism* Fabian Neuhaus, 2011-08-04 This book is very much about what the name urbanTick literally says about the ticking of the urban the urban as we experience it everyday on the bus in the park or between buildings It is about the big orchestrated mass migration of commuters the seasonal blossoms of the trees along the walkway and the frequency of the stamping rubbish eater trucks It is also not to forget about climate infrastructure opening hours term times parking meters time tables growing shadows and moon light But most of all it is about how all this is experienced by citizens on a daily basis and how they navigate within this complex structure of patterns The content of this book is based on the content of the urbanTick blog between 2008 2010 One year blogging about this topic brought together a large collection of different aspects and thoughts It is not at all a conclusive view the opposite might be the case it is an exploratory work in progress while trying to capture as many facets of the topic as possible

Place Hacking Michael J. Rosen, 2015-01-01 Leaping from the Eiffel Tower in a wingsuit Scaling Shanghai Tower one of the world's tallest buildings Camping on the roof of Philadelphia's abandoned Eastern State Penitentiary These scenarios are real examples of explorations adventures and infiltrations of the built environment Thousands of people around the globe engage in the recreational activity of place hacking climbing wading jumping or even ironing their way into prohibited or obscure spaces Why do they do it Is it the exhilaration of trespassing Is it discovering a new perspective Is it roving through surroundings in an unpredictable manner Place hackers say it's all these things and more They're pushing the boundaries of exploration in much the same way that Neil Armstrong Jacques Cousteau and James Cook travelled into the frontiers of Earth and outer space Modern day place hackers investigate storm sewers subway tunnels abandoned power plants derelict hospitals deserted towns high security skyscrapers and temporary obsolete or even active spaces They go solo or in groups They plot their safety and success or intentionally throw caution to the wind They

plan entrance and exit strategies and provision with gear or they just go for it without any planning For some the experience is about flying under the radar being in the moment For others it s about capturing stunning images and posting them on blogs and Instagram In Place Hacking Venturing Off Limits Michael J Rosen takes readers across the globe to witness the challenging exploits of place hacking The journey includes a conversation with archaeologist Bradley L Garrett a world renowned urban explorer as well as encounters with infiltrators builderers subway runners rooftoppers vertical campers drainers and human flies They re all participants in a world of investigation where whatever is standing can be turned on its head for a second look **Wonderpedia / NeoPopRealism Archive 2009** Nadia Russ,2015-08-07 Wonderpedia an encyclopedia NeoPopRealism Journal of books published after year 2000 Founded by Nadia Russ in 2008 **Night Vision** Troy Paiva,2008-06-04 A booming subculture is on the rise dubbed Urban Exploration it involves sneaking into abandoned or off limits factories aviation boneyards decommissioned bases and other derelict features of the military industrial landscape Troy Paiva is a foremost photographer of the UrbEx as it s known to its devotees phenomenon and his distinctive blend of atmospheric night photos and lighting effects are the visual hallmarks of a scene that has drawn the increasing attention of the media and the public as seen in recent programs on both the Discovery Channel Urban Explorers and MTV Fear Illuminated by histories of the sites documented Night Vision reveals the remarkable discoveries of a new generation of explorers Unbored Joshua Glenn,Elizabeth Foy Larsen,2013-07-18 Unbored is the book every modern child needs Brilliantly walking the line between cool and constructive it s crammed with activities that are not only fun and doable but that also get kids standing on their own two feet If you re a kid you can Build a tipi or an igloo Learn to knit Take stuff apart and fix it Find out how to be constructively critical Film a stop action movie or edit your own music Do parkour like James Bond Make a little house for a mouse from lollipop sticks Be independent Catch a bus solo or cook yourself lunch Make a fake exhaust for your bike so it sounds like you re revving up a motorcycle Design a board game Go camping or glamping Plan a road trip Get proactive and support the causes you care about Develop your taste and decorate your own room Make a rocket from a coke bottle Play farting games There are gross facts and fascinating stories reports on what stuff is like home schooling working in an office Q As with inspiring grown ups extracts from classic novels lists of useful resources and best ever lists like the top clean rap songs stop motion movies or books about rebellion Just as kids begin to disappear into their screens here is a book that encourages them to use those tech skills to be creative try new things and change the world And it gets parents to join in Unbored is fully illustrated easy to use and appealing to young and old girl and boy Parents will be comforted by its anti perfectionist spirit and humour Kids will just think it s brilliant *City* P.D. Smith,2012-06-19 For the first time in the history of the planet more than half the population 3 3 billion people are now living in cities Two hundred years ago only 3 per cent of the world s population were urbanites a figure that had remained fairly stable give or take the occasional plague for about 1000 years By 2030 60 per cent of us will be urban dwellers City is the ultimate handbook for the

archetypal city and contains main sections on History Customs and Language Districts Transport Money Work Tourist Sites Shops and markets Nightlife etc and mini essays on anything and everything from Babel Tenochtitl n and Ellis Island to Beijing Mumbai and New York and from boulevards suburbs shanty towns and favelas to skylines urban legends and the sacred Drawing on a wide range of examples from cities across the world and throughout history it explores the reasons why people first built cities and why urban populations are growing larger every year City is illustrated throughout with a range of photographs maps and other illustrations

Dwell ,2009-07 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

A Burglar's Guide to the City Geoff Manaugh,2016-04-05 A deeply researched and brilliantly written blueprint to the criminal possibilities in the world all around us Warren Ellis author of Gun Machine At the core of A Burglar s Guide to the City is an unexpected and thrilling insight how any building transforms when seen through the eyes of someone hoping to break into it Studying architecture the way a burglar would Geoff Manaugh takes readers through walls down elevator shafts into panic rooms and out across the rooftops of an unsuspecting city Encompassing nearly two thousand years of heists and break ins the book draws on the expertise of reformed bank robbers FBI special agents private security consultants the LAPD Air Support Division and architects past and present Whether discussing how to pick padlocks climb the walls of high rise apartments find gaps in a museum s surveillance routine or discuss home invasions in ancient Rome A Burglar s Guide to the City ensures readers will never enter a bank again without imagining how to loot the vault or walk down the street without planning the perfect getaway Praise for A Burglar s Guide to the City This burglar s guide isn t for ordinary smash and grab burglars it s for the rest of us who steal in steal out and get away with glorious dreams A spectacularly fun read Robert Krulwich cohost of Radiolab Who knew that urban studies could be so riveting Geoff Manaugh excels at finding new illicit and fresh angles on a subject as loved as it is overexposed the city In his new book elegant perverse sinuous supervillains maneuver and master the city like parkour champions I see the TV series already Paola Antonelli design curator MoMA

DIY Utopia Amber Day,2016-12-22 At first glance contemporary popular culture filled with bleak images of the future seems to have given up on the possibility of positive collective change Below the surface however alternative culture is rife with artist led projects activist movements and subcultural communities of interest that seek to spark the collective imagination and to encourage hunger for alternatives More playfully self conscious than past utopian movements today s are often whimsical or ironic but are still entirely earnest Artists invite us to re author city maps or archive individual ideas for the future while maker collectives urge us to rethink our relationship to consumer goods All seem to have grown out of a similar do it yourself ethos and alternative culture One of the central conflicts informing these case studies is that while it remains immensely difficult to envision

anything outside of the current system of consumer capitalism there is nevertheless a powerful desire to take it apart in piecemeal ways We see the longing for new social and political narratives new forms of communion and sociability and new imaginings of the possible longings that are currently unmet by mainstream culture but that are taking expression in myriad ways at the local level Taken as a whole this collection examines what our grand ideals and playful daydreams tell us about ourselves

Low End Theory Paul C. Jasen, 2017-08-24 Low End Theory probes the much mythologized field of bass and low frequency sound It begins in music but quickly moves far beyond following vibratory phenomena across time disciplines and disparate cultural spheres including hauntings laboratories organ workshops burial mounds sound art studios dancefloors infrasonic anomalies and a global mystery called The Hum Low End Theory asks what it is about bass that has fascinated us for so long and made it such a busy site of bio technological experimentation driving developments in science technology the arts and religious culture The guiding question is not so much what we make of bass but what it makes of us how does it undulate and unsettle how does it incite how does it draw bodily thought into new equations with itself and its surroundings Low End Theory is the first book to survey this sonorous terrain and devise a conceptual language proper to it With its focus on sound s structuring agency and the multi sensory aspects of sonic experience it stands to make a transformative contribution to the study of music and sound while pushing scholarship on affect materiality and the senses into fertile new territory Through energetic and creative prose Low End Theory works to put thought in touch with the vibratory encounter as no scholarly book has done before For more information visit <http://www.lowendtheorybook.com>

Shakespeare and the Future of Theory François-Xavier Gleyzon, Johann Gregory, 2017-10-02 Shakespeare and the Future of Theory convenes internationally renowned Shakespeare scholars and scholars of the Early Modern period and presents discusses and evaluates the most recent research and information concerning the future of theory in relation to Shakespeare s corpus Original in its aim and scope the book argues for the critical importance of thinking Shakespeare now and provides extensive reflections and profound insights into the dialogues between Shakespeare and Theory Contributions explore Shakespeare through the lens of design theory queer theory psychoanalysis Derrida and Foucault amongst others and offer an innovative interdisciplinary analysis of Shakespeare s work This book was originally published as two special issues of English Studies

Architect, 2009-07 **Dreams + Disillusions** CJ Lim, Luke Angers, 2024-04-25 Dreams Disillusions explores the plethora of ideas and ideologies that have shaped and reshaped cities in profound ways However unlike a conventional title on the history of urbanism and architecture its research fluctuates between the world of concrete reality and the multiple universes that exist in lucid prose poetic visions and the outrageous imaginations of history s greatest and most in famous minds In their thoughts are the foundations for political trends and new civilisations alternative mappings and unlikely phenomena The six chapters reveal dreams that were fundamental to the origin of great cities underpinning the stories of the many lives within and how through circumstance or manipulation fortunate coincidence or

planned perfection desires are sometimes left defeated and disillusioned Myth and belief Tradition and logic Revolution and marginalisation Ignorance and hubris Sins and excess Seasons and climate Continuously interacting shifting to enlighten and to enrage these themes combine critical thinking with deep rooted influences and new agencies that are a true sign of the times The 18 illustrated speculations provide an abundance of curious imaginings diverse provocations and satirical criticism While there are distinctions between dreams and disillusionments could virtues be made of sins or sensitivity be borne from hubris Could progress advocate tradition or should we re attempt revolutions formerly experienced as disillusionments Whether by bold gestures or by subtle attrition cities are continually re written crucibles for the human condition In this book we develop a better understanding of the discourse of cities tailored to the determining factors of climate resources and humanity's idiosyncrasies to address a world in crisis

Underground Urbanism Elizabeth Reynolds, 2019-12-09 Have you ever wondered what lies beneath the streets of your city Do you picture in isolation a series of train tunnels and pipes Or perhaps the foundations of tall buildings that lie scattered like icebergs beneath the surface As our cities grow up out and down it is time we better understood how the different layers of these complex urban environments relate to one another Underground Urbanism seeks to provide a new perspective on our cities and consider how this might be used to engage more positively with them So tip your cities upside down to have a closer look and let us rethink them from below the ground up

The Architect's Dream Sean Pickersgill, 2023-09-29 Sean Pickersgill demonstrates that the goal of creating meaningful architecture can take a variety of critical and philosophical paths The importance of architecture as an expression of broad complex social drivers is complemented by the equally popular idea that architecture as an intellectual pursuit retains its own autonomy as a self referential culture This book uniquely places the emphasis for innovation in architecture within the domain of critical thinking generally and a specific understanding of the semantics of built form The book draws on a broad range of subject areas from film to philosophy to anthropology to mathematics and economics to show that the path to meaningful creative practice is always based in an understanding of the principal drivers for change and meaning in society It is not a simple recipe book or workshop manual for others to reproduce It requires the engaged reader to employ their own creative abilities to find what potential lies in each of the propositions and it will encourage the scholastic architect to continue to mine the rich veins of intellectual culture to demonstrate the latent purposiveness inherent in all meaningful architecture
