

The book cover features a vibrant, surreal illustration. At the top, a large, bright full moon hangs in a dark sky filled with stars and smaller celestial bodies. A white bird with spread wings flies in the upper right. Below the moon, a large, white, serpentine figure with a red dot on its head winds across the sky. The title 'My Homage to the' is written in a white, serif font across the top. Below this, the author's name 'Kent Nito' is written in a smaller, white, sans-serif font. The word 'Illusions' is written in a large, bold, black serif font, dominating the center. Below the title, the subtitle 'the Supernatural Operation of Kashihara Mitsuki' is written in a white, sans-serif font. The background of the lower half shows a city skyline at night, with the CN Tower visible on the left. In the foreground, a black silhouette of a person in a suit stands with their back to the viewer, looking out over a body of water. Two more white serpentine figures with red dots on their heads are in the water, one on each side of the central figure. The water is dark with colorful, swirling patterns. The overall style is a blend of traditional Japanese art and modern surrealism.

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures, many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's *Aeneid*, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part consists of entries grouped by language of origin; some are devoted to individual texts, e.g. *The Thousand and One Nights*, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.

The Moon Illusion Maurice Hershenov, 2013-05-13 This unique volume attempts to answer one of mankind's oldest puzzles: why the moon appears to be larger and closer on the horizon than when it is high in the sky. Over the centuries, many viable solutions have been proposed for this psychological phenomenon. *The Moon Illusion* presents papers by major theorists striving to explain the illusion and providing commentaries on the works of others. Research on the moon illusion has been scattered throughout journals in many disciplines, including philosophy, physiology, physics, and psychology. As the first publication to present a comprehensive treatment of the problem, this book is of vital interest to professionals whose

Vickrey, 2009 Most Beowulf scholars have held either that the poems minor episodes are more or less based on incidents in Scandinavian history or at least that they entail nothing of the fabulous or monstrous Beowulf and the Illusion of History contends that like the poem's Grendelkin episodes certain minor episodes involve monsters and contain motifs of the Bear's Son folktale In the Finn Episode the monsters are to be taken as physically present in the story as we have it while in the mention of the hero's fight with Daeghrefn and perhaps in the accounts of the fight with Ongenbeow the principal foes though originally monsters appear now more like ordinary humans The inference permits the elucidation of passages hitherto obscure and indicates that the capability of the Beowulf poet as a maker is greater than has been thought John F.
