Human Nature Richard Brook, 2021-04-13. Understanding Human Nature brings together twenty-five years of Richard Brook's experiences in yoga and meditation, acupuncture and Chinese medicine, dance and movement, Native American mysticism, tantra and community living. *Escaping the Deadly Embrace* Andrea Bartoletti, 2022-11-15. Encirclement

Andrea Bartoletti argues is an essential strategic possibility of the international system and a key trigger of major war. Using historical case studies, *Escaping the Deadly Embrace* examines how great powers try to escape the two-front war problem and seek to preserve their security. Encirclement is a geographic variable that occurs in the presence of one or two great powers on two different borders of the surrounded great power. The surrounding great powers may not have the capacity to initiate a joint invasion. Yet their threatening presence triggers a double security dilemma for the encircled great power, which has to disperse its army to secure its borders. When the surrounding great powers become capable of launching a two-front attack, the encircled great power initiates war. This situation, disastrous in itself, can also lead to war contagion when other great powers intervene in the new conflict owing to the rival-based network of alliances. Combining archival work and historiographical analysis, *Escaping the Deadly Embrace* demonstrates the efficacy of this by assessing three major wars: the Italian Wars, the Thirty Years War, and World War I. These findings, Bartoletti shows, have important implications for future major wars. Challenging the current focus on the US-China rivalry, he argues that the most concerning strategic scenario is the encirclement of China by India and Russia. **The Occult Nineteenth Century** Lukas Pokorný, Franz

Winter, 2021-01-09. The nineteenth century witnessed a proliferation of alternative religious currents and practices appropriating earlier traditions, entangling geographically distinct spiritual discourses and crafting a repository of mindscapes eminently suitable to be accommodated by later generations of thinkers and practitioners. Penned by specialists in the field, this volume examines important themes and figures pertaining to this occult amalgam and its resonance into the twentieth century and beyond. Global guises of the occult, ranging from the Americas and Europe to India, are variously addressed, with special attention to the crucial role of mesmerism and the origins of modern yoga.

Meditation for Busy People Osho, 2014-10-20. *Meditation for Busy People* offers simple strategies to reduce tension, minimize chronic stress, and quickly relax and unwind. Nobody needs meditation more than people who have no time to meditate. These busy people may have tried meditation but given it up as it seems so difficult to integrate into a hectic lifestyle. Most traditional meditation techniques were developed thousands of years ago for people living a very different lifestyle than today. Few people today find it easy to just sit down and relax. *Meditation for Busy People* is filled with methods that can actually be integrated into everyday life. A morning commute becomes a centering exercise, and the street noises outside an apartment window in the

city become an aid rather than a distraction to finding the silent space within Both active and passive meditation techniques are covered and the aim of all the techniques is to teach the practitioner how to find the stillness in the storm of everyday life Many methods are specially designed to be integrated into the reader s everyday routines so that they soon can tackle even the most hectic day with an attitude of relaxed calm and playfulness **Zorba the Buddha** Hugh B. Urban,2016-01-12

Zorba the Buddha is the first comprehensive study of the life teachings and following of the controversial Indian guru known in his youth as Bhagwan Shree Rajneesh and in his later years as Osho 1931 1990 Most Americans today remember him only as the sex guru and the Rolls Royce guru who built a hugely successful but scandal ridden utopian community in central Oregon during the 1980s Yet Osho was arguably the first truly global guru of the twentieth century creating a large transnational movement that traced a complex global circuit from post Independence India of the 1960s to Reagan s America of the 1980s and back to a developing new India in the 1990s The Osho movement embodies some of the most important economic and spiritual currents of the past forty years emerging and adapting within an increasingly interconnected and conflicted late capitalist world order Based on extensive ethnographic and archival research Hugh Urban has created a rich and powerful narrative that is a must read for anyone interested in religion and globalization *The Autobiography of God* Lenaa Kumar,2024-03-18 Are you a seeker rebel non conformist and free spirit Yes This book is for you This book is for the rational the practical the seeker the non conformist the leader the rebel and the free spirit This book is for you dear reader to destroy your self limiting beliefs and realize your full potential As this journey of self discovery spanning eighteen years unfolds Lenaa keeps a promise she made to herself during her darkest hours If I can stay off psychiatric medication for two years I will write a book for fellow sufferers of anxiety depression and the rigid psychiatric system Now five years later the clarity has distilled down to five questions one answer and a system of instant self realization What am I Who am I Where am I When am I Why am I Can you answer these questions to your own satisfaction If the answer is not a definite Yes dive right into *The Autobiography of God* Science and Beyond Rolf Sattler,2021-06-22

Science coupled with technology has become the dominant force in most parts of the world Thus it affects our lives and society in many ways Yet misconceptions about science are widespread in governments the general public and even among many scientists *Science and Beyond* explores these misconceptions that may have grave and even disastrous consequences for individuals and society as was evident during the COVID 19 pandemic where they led to much unnecessary suffering sickness and death The misconceptions also obscure the limitations of science Not seeing these limitations prevents us from seeing and going beyond them which leads to a crippled life and an impoverished society But reaching beyond the limitations of science as outlined in this book can open the doors to a more fulfilled saner healthier happier and more peaceful life and society *Multidisciplinary Research Area in Arts, Science & Commerce (Volume-10)* Chief Editor- Biplab Auddya, Editor- Mulay Atul Ramesh Rao, Dr. Harendra Kumar Sharma, Mokshamala U, Dr.Sugantha Ezhil Mary, Dr. Rahul, Dr. S Poongavanam,2025-11-01 **THE LIGHT OF SELF:**
