The Burning Bride English Edition:

The Burning Bride Manoj Kerai, 2015-03-08 In India one woman is murdered every hour by her husband's family for a dowry. The Burning Bride follows the story of Uma, a newlywed woman. She starts her new life with many dreams. However, her dreams turn into nightmares when her parents are unable to fulfil the dowry demands made by Madhu, her mother-in-law. The heaven she had imagined transforms into a hell, and the worst part is there appears to be no escape. Violence against women is high in India, but the irony is that Indian people worship women in the forms of many goddesses. The most commonly worshipped goddess is Durga, who has nine forms. Therefore, The Burning Bride is told through nine women's perspectives. The multiple perspectives highlight social, psychological, and cultural factors which allow the dowry system to claim so many lives every year. At least 10% of the profits made from the sales of The Burning Bride will support the Asian Circle to fund Oxfam projects to end domestic violence in India.

Burning Women P. Banerjee, 2016-04-30 In early modern Europe, the circulation of visual and verbal transmissions of sati or Hindu widow burning not only informed responses to the ritualized violence of Hindu culture but also intersected in fascinating ways with specifically European forms of ritualized violence and European constructions of gender ideology. European accounts of women being burned in India uncannily commented on the burnings of women as witches and criminal wives in Europe. When Europeans narrated their accounts of sati, perhaps the most striking illustration of Hindu patriarchal violence, they did not specifically connect the act of widow burning to a corresponding European signifier: the gruesome ceremonial burnings of women as witches. In examining early modern representations of sati, the book focuses specifically on those strategies that enabled European travellers to protect their own identity as uniquely civilized amidst spectacular displays of Eastern barbarity.

Questioning such allegorical interpretations, this study first details how Hebrew, Greek, and Roman texts depict without requiring allegorical understandings numerous bridegrooms associated not only with joy but also with violence and death. Second, this project appeals to the disruptive nature of parables, the feminist technique of resisting reading, and the Matthean Jesus's own ethical instructions to argue that in the parables, those who resist violent rulers and uncaring bridegrooms are the ones worthy of the Kingdom. The study then shows how the Matthean Jesus, the brideless celibate bridegroom, creates a fictive family by disrupting biological and marital ties, redefining masculinity, and undermining the desirability of marriage and procreation.
