Northern British Archipelago Ysanne Holt,David Martin-Jones,Owain Jones,2018-05-16 This edited collection including contributors from the disciplines of art history film studies cultural geography and cultural anthropology explores ways in which islands in the north of England and Scotland have provided space for a variety of visual cultural practices and forms of creative expression which have informed our understanding of the world Simultaneously the chapters reflect upon the importance of these islands as a space in which and with which to contemplate the pressures and the possibilities within contemporary society This book makes a timely and original contribution to the developing field of island studies and will be of interest to scholars studying issues of place community and the peripheries **Heritage and Identity** J.M.

Fladmark,Thor Heyerdahl,2015-11-17 Was the shaping of nation states in Northern Europe governed by military might or by Christian and democratic ideals How has trade and cross cultural exchange between Scandinavia and the British Isles shaped our historic identities and what about the impact of global politics and marketing in recent times These are some of the questions explored by the contributors in the context of forces that shape national identities today Their analysis highlights the need for historical awareness when developing future cultural policy brand profiles and marketing strategies Looking back Jesse Byock tells how democracy was first embraced in the north by the early settlers of Iceland Bjorn Myhre delves into the unpredictability of historical interpretation Edward Cowan discusses the role of battles and beddings in relations across the North Sea John Purkis writes about William Morris fascination with Nordic culture Stephen Harrison presents the winning ways of product development and marketing by Manx National Heritage whilst Chris Powell looks at Cool Britannia today and Simon Anholt at national branding strategies This is an inspirational book that sheds new light on old subjects equally relevant for both public and private sector policy makers alike **Syntactic architecture and its consequences I**

András Bárány,Theresa Biberauer ,Jamie Douglas ,Sten Vikner , This volume collects novel contributions to comparative generative linguistics that rethink existing approaches to an extensive range of phenomena domains and architectural questions in linguistic theory At the heart of the contributions is the tension between descriptive and explanatory adequacy which has long animated generative linguistics and which continues to grow thanks to the increasing amount and diversity of data available to us The chapters address research questions on the relation of syntax to other aspects of grammar and linguistics more generally including studies on language acquisition variation and change and syntactic interfaces Many of

these contributions show the influence of research by Ian Roberts and collaborators and give the reader a sense of the lively nature of current discussion of topics in synchronic and diachronic comparative syntax ranging from the core verbal domain to higher propositional domains
