The Maze of Fantasy in Tamil Folktales

Gabriella Eichinger Ferro-Luzzi, 2002 The book pursues an ethnographic and a theoretical purpose The ethnographic first part examines how Tamil folktales mostly gathered and published by Tamil authors reflect Tamil culture However since the narrators want to amuse their listeners and arouse their interest they tend to exaggerate or invert the normal situation Therefore their tales reflect more reliably Tamil values beliefs and interest than social behaviour The second theoretical part stresses the importance of the actually occurring motifs and casts doubt on typology Rather than artificially distinguishing tale types often thought to exist independent of the narrators it points out a network of thematic connections among Tamil folktales

Society of Others Rupert Stasch, 2009-06-02 This important study upsets the popular assumption that human relations in small scale societies are based on shared experience In a theoretically innovative account of the lives of the Korowai of West Papua Indonesia Rupert Stasch shows that in this society people organize their connections to each another around otherness Analyzing the Korowai people s famous tree house

dwellings their patterns of living far apart and their practices of kinship marriage and childbearing and rearing Stasch argues that the Korowai actively make relations not out of what they have in common but out of what divides them Society of Others the first anthropological book about the Korowai offers a picture of Korowai lives sharply at odds with stereotypes of tribal societies *Full Blooded* Amanda Carlson,2012-09-11 In the vein of Kelley Armstrong and Patricia Briggs Amanda Carlson s debut is a new urban fantasy that rewrites the werewolf myth It s not easy being a girl It s even harder when you re the only girl in a family of werewolves But it s next to impossible when your very existence spells out the doom of your race Meet Jessica McClain she just became part of the pack **The Evolution of Parental Care** Nick J. inward temptation make vivid appearances in early Christian monastic literature In this finely written study of demonology and Christian spirituality in fourth and fifth century Egypt David Brakke examines how the conception of the monk as a holy and virtuous being was shaped by the combative encounter with demons Brakke studies the making of the monk from two perspectives First he describes the social and religious identities that monastic authors imagined for the demon fighting monk the new martyr who fights against the pagan gods the gnostic who believes he knows both the tricks of the demons and the secrets of God and the prophet who discerns the hidden presence of Satan even among good Christians Then he employs recent theoretical ideas about gender and racial stereotyping to interpret accounts of demon encounters especially those in which demons appear as the Other as Ethiopians as women or as pagan gods Drawing on biographies of exceptional monks collections of monastic sayings and stories letters from ascetic teachers to their disciples sermons and community rules Brakke crafts a compelling picture of the embattled religious celibate Demons and the Making of the Monk is an insightful and innovative exploration of the development of Christian monasticism Daqian Demon Suppressor Robin
