Lowndes, 2016-11-28 For 60 years starting in 1931 Reno was unarguably the place where things not possible elsewhere were its hallmarks gambling divorce and uncomplicated weddings Old promotional campaigns described two Renos one for gambling and entertainment and one for outdoor activities For locals there were two other Renos One was a beautiful city on a mountain river between towering peaks It was a community of local businesses where people knew each other and were

proud of its university The other Reno was the city of casinos and top name entertainment that attracted visitors For most of those 60 years the visitors Reno increasingly crowded out the residents Reno But with the decline of the divorce and gambling businesses and the coming of new high tech industries to Reno s economy Reno s heyday may be just gearing up for a second wind

The Genesis of Reno Jack Harpster,2016-09-13 Over 157 years ago before there was a Reno Nevada before there was a state of Nevada and even before there was a Nevada Territory there was a bridge over the Truckee River at a narrow deeply rutted cattle and wagon trail that would one day become Virginia Street There was also a small rustic inn and tavern occupying a plot of ground at the southern end of the log and timber bridge catering to thirsty cowboys drovers and miners The inn and the bridge were the first two structures in what would one day be a bustling metropolitan area and to this day they still form the nucleus of the city The Genesis of Reno traces their history up to the present day The 111 year old concrete bridge that was replaced in 2016 by a magnificent new structure was honored for its longevity and unique character with placement on the National Register of Historic Places in 1980
