The Cannibal Novel

Abby H. P. Werlock

The Cannibal Novel:

The Cannibal John Hawkes, 2013-07-25 *The Cannibal* was John Hawkes's first novel published in 1949. No synopsis conveys the quality of this now famous novel about an hallucinated Germany in collapse after World War II. John Hawkes in his search for a means to transcend outworn modes of fictional realism has discovered a highly original technique for objectifying the perennial degradation of mankind within a context of fantasy. Nowhere has the nightmare of human terror and the deracinated sensibility been more consciously analyzed than in *The Cannibal*. Yet one is aware throughout that such analysis proceeds only in terms of a resolutely committed humanism. Hayden Carruth *The Cannibal* John Hawkes, 1962

American Novel Carl Van Doren, 1921 *Liminal Fiction at the Edge of the Millennium* Jessica A. Folkart, 2014-10-08 *Liminal Fiction at the Edge of the Millennium* The Ends of Spanish Identity investigates the predominant perception of liminality identity situated at a threshold neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain. Examining how identity and alterity are parleyed through the cultural concerns of historical memory gender roles sex religion nationalism and immigration this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge a liminal ground. On the border between two identities the end materializes as an ephemeral limit that

delineates and differentiates yet also adjoins and approximates In exploring the ends of Spanish fiction both their structure and their intentionality Liminal Fiction maps the edge as a constitutive component of narrative and identity in texts by Najat El Hachmi Cristina Fernandez Cubas Javier Mar as Rosa Montero and Manuel Rivas In their representation of identity on the edge these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain

The Literature of the United States of America Marshall Walker,1988-09-15 American literature over the last four hundred years has developed distinctive qualities and traditions partly engendered by the land itself The rich variety of literature flourished as the land was colonised and cultivated In this new edition Marshall Walker has updated his wide ranging study of American literature by giving greater attention to poets from Hart Crane and e e Cummings to John Ashbery and A R Ammons and to novelists from William Burroughs and Kurt Vonnegut to John Irving More space is given to drama from the later works of Tennessee Williams and Arthur Miller to the plays of Sam Shepard and David Mamet The special concerns of Black Jewish and Women writers are explored as this book demonstrates that American literary history can no longer be considered largely in terms of regional dominances

How Novels Think Nancy Armstrong,2006-01-11 Nancy Armstrong argues that the history of the novel and the history of the modern individual are quite literally one and the same She suggests that certain works of fiction created a subject one displaying wit will or energy capable of shifting the social order to grant the exceptional person a place commensurate with his or her individual worth Once the novel had created this figure readers understood themselves in terms of a narrative that produced a self governing subject In the decades following the revolutions in British North America and France the major novelists distinguished themselves as authors by questioning the fantasy of a self made individual To show how novels by Defoe Austen Scott Bront Dickens Eliot Hardy Haggard and Stoker participated in the process of making updating and perpetuating the figure of the individual Armstrong puts them in dialogue with the writings of Locke Hume Rousseau Malthus Darwin Kant and Freud Such theorists as Althusser Balibar Foucault and Deleuze help her make the point that the individual was not one but several different figures The delineation and potential of the modern subject depended as much upon what it had to incorporate as what alternatives it had to keep at bay to address the conflicts raging in and around the British novel

Choice in Charles Dickens's Later Novels Keith Easley, 2023-06-19 We read the book and the book is reading us In his later novels Charles Dickens uses the interaction between characters and their audiences within the fiction to dramatise his growing understanding of the pivotal role of spectatorship and choice in a more democratic society Egotists of all stripes intent on bending the world to their singular will would appropriate the power of spectatorship by taking command of the detachment necessary for choice Dickens's pluralistic art of sameness and difference redefines that detachment and liberates choice both inside and outside the novels for the relationship between characters and their audiences within the narratives actually inscribes our own relationship with them in the performance of reading a reflective doubling of the fiction upon the reader across time with moral consequences for our spectatorship of our own lives
