Hypercapitalism Larry Gonick,Tim Kasser,2018-01-16 PAPERBACK ORIGINAL From the bestselling cartoonist of The Cartoon History of the Universe comes an explosive graphic takedown of capitalism Bestselling overeducated cartoonist Larry Gonick has delighted readers for years with sharp digestible and funny accounts of everything from the history of the universe to the intricacies of calculus Now Gonick teams up with psychologist and scholar Tim Kasser to create an accessible and pointed cartoon guide to how global privatizing market worshipping hypercapitalism threatens human well being social justice and the planet But Gonick and Kasser don t stop at an analysis of how the economic system got out of whack they also point the way to a healthier future A primer for the post Occupy generation Hypercapitalism draws from contemporary research on values well being and consumerism to describe concepts corporate power free trade privatization deregulation that are critical for understanding the world we live in and movements voluntary simplicity sharing alternatives to GDP protests that have developed in response to the system Gonick and Kasser s pointed and profound cartoon narratives provide a deep exploration of the global economy and the movements seeking to change it all rendered in clear graphic and sometimes hilarious terms **The Mind at Hand** Michael J. Strauss,2013-01-01 The Mind at Hand explores how artists

scientists writers and others students and professionals alike see their world record it revise it and come to know it It is about the rough drawn sketch diagram chart or other graphic representation and the focus these provide for creative work that follows from them Such work could involve solving a problem composing a musical score proposing a hypothesis creating a painting and many other imaginative and inventive tasks The book is for for visual learners of all kinds for scientists as well as artists and for anyone who keeps a journal notebook or lab book in order to think and create visually It is also a book for teachers and educational administrators interested in learning about new active learning strategies involving drawing and possible outcomes of these in classrooms The formulas and symbols of chemistry the diagrams and features of the landscape in geology and the organisms and structures in biology are all represented as images on pages or screens

Students create them when studying problem solving and learning Once in front of their eyes they can be reconsidered revised and reconstructed into new images for further consideration and revision It is how artists often create a painting or a sculpture and how scientists come up with new hypotheses This is how learning occurs not only across disciplines but in all kinds of creative endeavors through a continuing process of creation revision and re creation It is drawing to learn

Candle Grove James Reynold Riley,2011-12-29 Why do teenagers keep disappearing in Potterfield Is it the monsters rumored to be lurking in the forest The ghost ship that plies the waters of the lake Something sinister afoot in the halls of the abandoned mental hospital Or hostile spirits roaming the ruins of the old burnt capitol building Seven high school kids are about to learn these answers as they face the dangers of a town with more darkness than they ever imagined And come to grips with a faith they had always taken for granted until now
