## **The Booby Blog A Cancer Chronicle:**

**The Booby Blog** Hollis Walker, 2014-10-15 Based on the blog and personal journal Hollis Walker wrote during her journey through breast cancer The Booby Blog A Cancer Chronicle shows us what living with cancer is really like While most people may assume the physical aspects of cancer are the worst of it Walker's real time writing reveals a relentless and intense parade of emotional and spiritual responses marching beneath the surface anger fear uncertainty isolation and threats to identity self esteem and faith During her search for meaning in the midst of this chaos Walker discovers a secret we must embrace illness as part of our spiritual journey in order to become the authors of our own healing With honesty immediacy and humor The Booby Blog A Cancer Chronicle offers inspiration and hope to those facing life threatening illness and the people who care about them

**Booby Trap** Allison Bially, 2013-09-17 First came boobs then came marriage then came baby in the baby carriage Then came cancer Who knew that having cancer would be so reminiscent of being pregnant Booby Trap provides this wacky perspective in order to help patients laugh through their dark days and to give caregivers the tools to try to understand The heightened sense of smell the nausea the food restrictions and the need for a new wardrobe are just some of the strange ways that these two situations are the same This book chronicles the author's first hand knowledge of both cancer and parenthood and leans on the common experiences of pregnancy and motherhood to illustrate what undergoing cancer treatment is really like

**The Adventures of Cancer Bitch** S.L. Wisenberg, 2024-10-15 S L Wisenberg known for writing that is seriously funny proves in this acerbic chronicle that a cancer diary can be at once hilarious rageful and feminist She passes through the expected rites of breast cancer diagnosis surgery and chemotherapy but her responses are less expected she throws a farewell party for her left breast and rejects a cranial prosthesis in favor of using her bare scalp as a canvas for political messages She insightfully criticizes the ad campaigns of cancer charities the inept medical staff and the inequities in the U S health care system she encounters as she navigates daily life with cancer and chemo There is much she disapproves of from Brazilian waxes to books that blame patients for their own diseases Drawing on a wealth of personal literary and historical sources The Adventures of Cancer Bitch creates an indelible image of a politically engaged self aware woman facing a daunting disease while examining her soul and society And riding the subway and teaching one breasted It's a thought provoking memoir from a woman who questions everything and everyone including herself This revised and expanded second edition features new observations and reflections from the author

**Getting Over a Cold** Allison Eberhardt, 2014-04-07 As if being diagnosed with cancer isn't scary enough it's even more overwhelming when you're plucked out of your life and forced to become accustomed to a completely new one This is the blog of a 19 year old girl who documented her year long battle with leukemia and all of the adventures that came with it This version comes in Black White

**So Much to Be Done** Barbara Brenner, 2016-05-11 What kind of cancer is it was the first question Barbara Brenner asked her doctor after hearing that the lump in her breast was malignant His answer You don't need to know that

Wrong response Brenner who was already an activist made knowing her business and spreading knowledge her mission The power behind Breast Cancer Action and its transformative Think Before You Pink campaign Barbara Brenner brought an abundance of wit courage and clarity to the cause and forever changed the conversation What had been construed as an individual crisis could now be seen for what it was a pressing concern of public health and social justice with environmental issues at the center of prevention efforts Collected in *So Much to Be Done* and framed by personal accounts of Barbara and her influential work Brenner's columns and blog posts form a chronicle of breast cancer research and health care activism that is as inspiring as it is informative As she takes on the corporate forces at work in breast cancer research and treatment and in the pinkwashing of fund raising for the cause Brenner a self-described hell raiser contends with cancer herself twice and her words offer understanding and encouragement to all those whose lives are touched by the disease When Brenner was diagnosed with ALS in 2011 she broadened her critique of health care while also writing about her own experience Infused with her characteristic moxie humor anger and compassion these reflections from her last two years provide an in depth precisely observed portrayal of what it is to live with a terminal disease and to die on one's own terms **The Boob**

**Blog** Linda M. Ball, 2013-09-10 I always thought I'd just curl up and die if I was ever diagnosed with cancer or any other life threatening disease But I surprised myself I had more strength than I knew I had I decided I wanted to live Cancer is a bitch My ability to find humor even in the lowest points of my life and my determination to deal with the disease with as much grace as possible got me through Many cancer patients I learned shut themselves off from everything work play love sex But I didn't Yes I felt horrible for many months of my journey but I still forged on I exercised I went to rock concerts I was at the helm of a 161 foot sailboat and I even made love to a man I treasured when I had one breast This is my story about a girl a woman going through the horror of breast cancer yet trying to remain among the living *Laugh with Kathy* Kathy

So It's Serious; I Really Have Cancer Al Goggins,2008-12-15 Like most people when you have an ache or pain that just

will not go away eventually you simply go to a doctor You then follow the prescribe treatment and you hope of a quick cure to the problem You hear stories about other people who end up having major medical problems that come to light from a simple doctor s visit but you never think that your story would become one of those stories Actually by the time I got to my last round of doctors I suspected that I might have a larger problem than I cared to admit On top of that I had no medical insurance I hoped against all hope that I was only being emotionally dramatic that the doctor had some miracle pill that would allay my concerns and I would find I lost a few nights sleep over nothing Unfortunately the suspected problem turned out to be a tumor most likely cancer but a biopsy would be needed to confirm or deny the suspicions I went in as an outpatient just to have a biopsy and I awoke from the procedure in a hospital Intensive Care Unit with a new tracheotomy assisted breathing and a diagnosis of an advanced cancer I was terrified I did not know what the outcome would be and dying seemed to be a very real possibility This is where blogging became important to my state of mind and my ability to stay in touch with those who where concerned about me By blogging about my experiences I had an outlet to express my fears my anger and my hope Through blogging I was able to maintain an upbeat spirit that I am convinced helped save my life The point of this book is less about my experiences so much as it is about the insights one gains when you re gravely ill and how sharing those insights might help other patients family members and friends who have serious health challenges of their own
