Renaissance England Jonathan Hughes, 2022-02-24 Dante's Divine Comedy in Early Renaissance England compares the intellectual emotional and religious world of Dante in 13th century Florence with that of a group of English intellectuals gathered around Humphrey Duke of Gloucester uncle of the King Henry VI Here Jonathan Hughes establishes that there was a Renaissance in 15th century England encouraged by the discovery and translations of works of Greek philosophers and developments in science and medicine and that vernacular writers in Gloucester's circle such as John Lydgate and Robert Hoccleve were of fundamental importance in exploring the meaning of the self and man's relationship with the natural world and the classical past However the appearance in 15th century England of Dante's Commedia the most popular work of the Middle Ages served to remind writers and readers of the cost of intellectual enquiry the loss of faith in a harmonious and beautiful world the redemptive power of the love of a woman and the tangible presence of an afterlife Engagingly written and meticulously researched this innovative study shines a new perspective on Dante scholarship as well as offering a unique analysis of intellectual thought and culture in 15th century England **Problems in Eugenics**, 1912 **The Nature of**

insurance and tracks the spread of underwriting practices and institutions in Europe and America through the early modern era. With contributions from eleven leading researchers from seven countries, the book examines key institutional developments in the history of marine insurance. The authors discuss its invention in Italy and its evolution from private to corporate structures, assessing the causes and impacts of various state interventions. Amsterdam and Antwerp are analysed as one-time key centres of underwriting, as is the emergence and maturity of marine insurance in London. The book evaluates an experiment in corporate underwriting in Cadiz and the development of insurance institutions in the United States before applying the metrics of underwriting to discuss commerce raiding in the Atlantic up to the nineteenth century. **A Critical**
