Gill, 2024-10-01 Artwashing the Past Context Matters contributes to the wider discussion about the appropriate due diligence process that should be conducted prior to the acquisition of cultural objects The chapters were written as museums in Europe and North America were facing a series of claims on recently acquired objects in their collections in the light of the photographic dossiers that had been seized from dealers in Switzerland and Greece They engage with some of the recent debates over cultural property that include the Ka Ka Nefer mummy mask currently in the St Louis Art Museum and the Leutwitz Apollo acquired by the Cleveland Museum of Art Two of the essays reflect on the recent and controversial metal detecting finds in England the so called Crosby Garrett helmet and the Lenborough Hoard Organized Crime on Page and Screen David Geherin, 2024-10-25 Thanks to writers like Mario Puzo filmmakers like Francis Ford Coppola and Martin Scorsese and actors like Al Pacino and James Gandolfini American and Sicilian Mafia characters are well known figures in contemporary popular culture Other powerful organized crime groups appearing in popular media include the Neapolitan Camorra and Mexican drug cartels This book takes a close look at all these examples of organized crime by examining the different ways these organizations and their members have been portrayed in many of our most popular novels movies and TV series and how the gangster figure has evolved from its earliest depictions in a trio of Hollywood films in the 1930s up to the present day **Racism in the Neoliberal Era** Randolph Hohle, 2025-08-22 Racism in the Neoliberal Era explains how simple racial binaries like black white are no longer sufficient to explain the persistence of racism capitalism and elite white power The neoliberal era features the largest Black middle class in US history and extreme racial marginalization Racial languages change the meaning of public and private political economy s two fundamental terms Randolph Hohle focuses on how the origins and expansion of neoliberalism depended on a racial language of white private black public The language of neoliberalism explains how the white racial frame operates like a web of racial meanings that connect social groups with economic policy geography and police brutality When America was racially segregated elites consented to political pressure to develop and fund white public institutions The Black civil rights movement eliminated legal barriers that prevented racial integration The elite white response to Black civic inclusion was to deregulate the Voting Rights Act and banking policy Elites gave themselves tax cuts and implemented austerity measures on government programs to aid the poor They privatized neighborhoods schools and social welfare creating markets around poverty They oversaw the mass incarceration and systemic police brutality against people of color Citizenship was recast as a

privilege instead of a right Neoliberalism is the result of an elite white meta strategy to maintain political and economic power This new edition is thoroughly revised and updated to take account of the further history and debates over neoliberalism in the Trump and Biden eras and the significant social and political discussions around race and racism policing housing health care and citizenship as they interconnect with the American neoliberal economic and political system The new edition will be a vital textbook for students instructors and researchers in sociology politics race and economics
