The Journal of Sir Walter Scott Sir Walter Scott, 2015-12-16 *The Journal of Sir Walter Scott* is a diary which the novelist and poet Walter Scott kept between 1825 and 1832. It records the financial disaster which overtook him at the beginning of 1826 and the efforts he made over the next seven years to pay off his debts by writing bestselling books. Since its first complete publication in 1890, it has attracted high praise, being considered by many critics one of the finest diaries in the language. From the time of the Journal's first publication, extraordinary claims have been made for it. In 1891, Algernon Swinburne wrote that "The too long delayed publication of his Journal is in every way an almost priceless benefit, but as a final illustration and attestation of a character almost incomparably lovable, admirable, and noble, it is a gift altogether beyond price." The biographer Hesketh Pearson called it "Perhaps the most valuable, certainly the most moving of all his productions, and since it displays a man whose goodness of heart balanced his greatness of mind, incomparably the most interesting work of its kind ever written." The Scott scholar David Hewitt agreed, writing that "There is no greater or more moving diary in English; however, he also made the point that its fine artistic shape cannot be credited to Scott, since he quite fortuitously took up the Journal as the tragedy of his last years was about to begin." The literary historian Oliver Elton believed that the Journal's high place in English literature was secure. Whatever else of Scott's may lose its colour with time, the Journal cannot do so with its accurate, unexaggerated language of pain.
