Latinization of U.S. Schools Jason Irizarry, 2015-12-03 Fueled largely by significant increases in the Latino population the racial ethnic and linguistic texture of the United States is changing rapidly Nowhere is this Latinisation of America more evident than in schools The dramatic population growth among Latinos in the United States has not been accompanied by gains in academic achievement Estimates suggest that approximately half of Latino students fail to complete high school and few enroll in and complete college The Latinization of U S Schools centres on the voices of Latino youth It examines how the students themselves make meaning of the policies and practices within schools The student voices expose an inequitable opportunity structure that results in depressed academic performance for many Latino youth Each chapter concludes with empirically based recommendations for educators seeking to improve their practice with Latino youth stemming from a multiyear participatory action research project conducted by Irizarry and the student contributors to the text [Latinization](#)

Indigenous Students Rebecca A. Campbell-Montalvo, 2023-05-15 Based upon research in rural central Florida The Latinization of Indigenous Students examines how schools perceive and process demographic information including how those perceptions may erase Indigeneity and impact resource access Based on multiyear fieldwork Campbell Montalvo argues that languages and racial identities of Indigenous Latinx students and families may be re formed by schools erasing Indigeneity However programs such as the federally funded Migrant Education Program can foster equitable access by encouraging pedagogies that position teachers as cultural insiders or learners Anchored by pertinent anthropological theories this work advances our ability to name and explain pedagogical phenomena and their role in rectifying or reproducing colonialism among marginalized and minoritized groups [Latino Civil Rights in Education](#) Anaida Colon-Muniz, Magaly Lavadenz, 2015-10-05 Latino Civil Rights in Education La Lucha Sigue documents the experiences of historical and contemporary advocates in the movement for civil rights in education of Latinos in the United States These critical narratives and counternarratives discuss identity inequality desegregation policy public school bilingual education

higher education family engagement and more comprising an ongoing effort to improve the conditions of schooling for Latino children Featuring the perspectives and research of Latino educators sociologists historians attorneys and academics whose lives were guided by this movement the book holds broad applications in the study and continuation of social justice and activism today Decolonizing Educational Research Leigh Patel,2015-12-11 Decolonizing Educational Research examines the ways through which coloniality manifests in contexts of knowledge and meaning making specifically within educational research and formal schooling Purposefully situated beyond popular deconstructionist theory and anthropocentric perspectives the book investigates the longstanding traditions of oppression racism and white supremacy that are systemically reseeded and reinforced by learning and social interaction Through these meaningful explorations into the unfixed and often interrupted narratives of culture history place and identity a bold timely and hopeful vision emerges to conceive of how research in secondary and higher education institutions might break free of colonial genealogies and their widespread complicities Changing Lives Taylor Stoehr,2015-12-22 Changing Lives recounts the experiences of a dozen men on probation in Massachusetts who took classes for three months to read and talk about great works of literature The men explored the writings of Malcolm X Leo Tolstoy and Anton Chekhov amongst others In these writings the men discovered many issues relating to their own lives such as substance abuse family breakdown poverty and racism The lessons create a safe space for reflection and earnest conversation in which the students no longer have to bluff or be cool guarded or evasive And because the classroom puts them on equal footing with authority figures teachers probation officers and even judges a new social awareness begins to emerge Changing Lives shows how reawakening moral consciousness and a fresh commitment to society is essential if probationers are not to cycle endlessly through the limbo of street life and jail time

Pedagogy of Commitment Paulo Freire,2015-11-17 This first English translation of Pedagogy of Commitment takes readers deep into the acts and meaning of living a life of community and social commitment Paulo Friere discusses how for teachers specifically this commitment is not only to students to the underprivileged or to the education of those who speak a different language but to the transformation of the self to become more deeply responsive to the needs of social transformations More than any other Freire book this speaks directly and plainly to the lives of individuals and to teachers It is an inspiring and passionate call from a global giant of progressive education **Born Out of Struggle** David Omotoso Stovall,2016-03-31 Demonstrates how critical race theory can be useful in real world situations Rooted in the initial struggle of community members who staged a successful hunger strike to secure a high school in their Chicago neighborhood David Omotoso Stovall s Born Out of Struggle focuses on his first hand participation in the process to help design the school Offering important lessons about how to remain accountable to communities while designing a curriculum with a social justice agenda Stovall explores the use of critical race theory to encourage its practitioners to spend less time with abstract theories and engage more with communities that make a concerted effort to change their conditions Stovall provides

engage and empower learners Book Features Combines the fields of bilingual education and disability studies so that bilingual students with disabilities can be understood and taught from a strengths based perspective Includes activity invitations to help teachers create high quality learning spaces Provides sample work from diverse elementary school aged children as well as children s responses to the learning activity Proposes curriculum to expand what identity and agency look like in schools embracing more humanistic pedagogies

Border Thinking Andrea Dyrness, Enrique Sepúlveda III, 2020-03-31 Rich accounts of how Latinx migrant youth experience belonging across borders As anti immigrant nationalist discourses escalate globally *Border Thinking* offers critical insights into how young people in the Latinx diaspora experience belonging make sense of racism and long for change Every year thousands of youth leave Latin America for the United States and Europe and often the young migrants are portrayed as invaders and if able to stay told to integrate into their new society *Border Thinking* asks not how to help the

diaspora youth assimilate but what the United States and Europe can learn about citizenship from these diasporic youth

Working in the United States Spain and El Salvador Andrea Dyrness and Enrique Sep lveda III use participatory action research to collaborate with these young people to analyze how they make sense of their experiences in the borderlands Dyrness and Sep lveda engage them in reflecting on their feelings of belonging in multiple places including some places that treat them as outsiders and criminals Because of their transnational existence and connections to both home and host countries diaspora youth have a critical perspective on national citizenship and yearn for new forms of belonging not restricted to national borders The authors demonstrate how acompa amiento spaces for solidarity and community building among migrants allow youth to critically reflect on their experiences and create support among one another Even as national borders grow more restricted and the subject of immigration becomes ever more politically fraught young people s identities are increasingly diasporic As the so called migrant crisis continues change in how citizenship and belonging are constructed is necessary and urgent to create inclusive and sustainable futures In *Border Thinking* Dyrness and Sep lveda decouple citizenship from the nation state calling for new understandings of civic engagement and belonging

Identity Intersectionalities, Mentoring, and Work-Life (Im)Balance Katherine Cumings Mansfield,Anjalé D. Welton,Pei?Ling Lee,2016-08-01 Identity matters Who we are in terms of our intersecting identities such as gender race social class dis ability geography and religion are integral to who we are and how we navigate work and life Unfortunately many people have yet to grasp this understanding and as a result so many of our work spaces lack appropriate responses to what this means Therefore *Identity Intersectionalities Mentoring and Work life Im balance* Educators Re negotiate the Personal Professional and Political the most recent installment of the work life balance series uses an intersectional perspective to critically examine the concept of work life balance In an effort to build on the first book in the series that focused on professors in educational leadership preparation programs the authors here represent educators across the P 20 pipeline primary and secondary schools in addition to higher education This book is also unique in that it includes the voices of practitioners students and academics from a variety of related disciplines within the education profession enabling the editors to include a diverse group of educators whose many voices speak to work life balance in unique and very personal

ways Contributing authors challenge whether the concept of work life balance might be conceived as a privileged and even an impractical endeavor Yet the bottom line is conceptions of work life balance are exceptionally complex and vary widely depending on one s many roles and intersecting identities Moreover this book considers how mentoring is important to negotiating the politics that come with balancing work and life especially if those intersecting identities are frequently associated with unsolicited stereotypes that impede upon one s academic professional and personal pursuits in life Finally the editors argue that the power to authentically be ourselves is not only important to individual success but also beneficial to fostering an institutional culture and climate that is truly supportive of and responsive to diversity equity and justice Taken together the voices in this book are a clarion call for P 12 and higher education professionals and organizations to envision how identity intersectionalities might become an every day understanding a normalized appreciation and a customary commitment that translates into policy and practice
