The Lists Of The Past:

Sale Or Distribution of Mailing Lists by Federal Agencies United States. Congress. House. Government Operations Committee,1972 **The Measure of Times Past** Donald J. Wilcox,1987 In this extraordinary work Donald J Wilcox seeks to discover an approach to narrative and history consistent with the discontinuous relative time of the twentieth century He shows how our B C A D system intimately connected to Newtonian concepts of continuous objective and absolute time has affected our conception and experience of the past He demonstrates absolute time s centrality to modern historical methodologies and the problems it has created in the selection and interpretation of facts Inspired by contemporary fiction and Einsteinian concepts of relativity he concludes his analysis with a comparison of our system with earlier pre Newtonian time schemes to create a radical new critique of historical objectivity *Ancient Greek Lists* Athena Kirk,2021-03-11 *Ancient Greek Lists* brings together catalogic texts from a variety of genres arguing that the list form was the ancient mode of expressing value through text Ranging from Homer s Catalogue of Ships through Attic comedy and Hellenistic poetry to temple inventories the book draws connections among texts seldom juxtaposed examining the ways in which lists can stand in for objects create value act as methods of control and even approximate the infinite Athena Kirk analyzes how lists come to stand as a genre in their own right shedding light on both under studied and well known sources to engage scholars and students of Classical literature ancient history and ancient languages *The Charm of a List* Lucie Doležalová,2009-01-14 *Lists* one of the most archaic literary genres stand behind many of our complex mental or rhetorical structures and they often influence the way we conceptualize the world even if we are unaware of it They seem plain but may conceal a complicated inner logic They are agrammatical but may tell a story Their basic features selection order and layout may be enough to give them enormous power by including they exclude by ordering they create a hierarchy by taking on particular physical aspects they place themselves into a specific context These and other issues are discussed in the present transdisciplinary volume collecting the best revised contributions to a workshop on lists held at the Center for Theoretical Study in Prague in November 2008 Each of the 13 articles by researchers from seven countries provides a case study on the subject of list The fields covered include late antique medieval and early modern history philology philosophy cognitive and computer science The contributors aim both at presenting particular cases specific lists or list types and at the same time at addressing methodological issues exploring the ways of researching lists in their particular disciplines formulating relevant research themes and questions contextualizing the subject Since theoretical discourse on lists has not been established yet this volume should be seen as a first step in the process showing the variety of possible research directions on a transdisciplinary level and raising interest in the topic which although it may seem a bit obscure at first has indeed a lot to offer Department of Energy Fiscal Year 1982 Authorization (FERC, ERA, OHA, Office of Conservation and Renewable Energy) United States. Library, 1924 **Vision, Narrative, and Wisdom in the Aramaic Texts from Qumran** Mette Bundvad, Kasper Siegismund, 2019-09-24 The Aramaic Dead Sea Scrolls from Qumran have attracted increasing interest in recent years These texts predate the sectarian Dead Sea scrolls and they are contemporary with the youngest parts of the Hebrew Bible They offer a unique glimpse into the situation before the biblical canons were closed Their highly creative Jewish authors reshaped and rewrote biblical traditions to cope with the concerns of their own time The essays in this volume examine this fascinating ancient literature from a variety of different perspectives The book grew out of an international symposium held at the University of Copenhagen in August 2017 Matters of Testimony Nicholas Chare, Dominic Williams, 2015-12-01 In 1944 members of the Sonderkommando the special squads composed almost exclusively of Jewish prisoners who ensured the smooth operation of the gas chambers and had firsthand knowledge of the extermination process buried on the grounds of Auschwitz Birkenau a series of remarkable eyewitness accounts of Nazi genocide This careful and penetrating study examines anew these Scrolls of Auschwitz which were gradually recovered in damaged and fragmentary form in the years following the camp's liberation It painstakingly reconstructs their historical context and textual content revealing complex literary works that resist narrow moral judgment and engage difficult questions about the limits of testimony *The Law Reports* George Wirgman Hemming, 1867 **The Iron Trade Review**, 1921 **Public Papers of the Presidents of the United States** United States.
