

A photograph of a misty forest path. The path is a narrow, reddish-brown trail that leads into the distance, flanked by green grass. On either side of the path are several tall, bare trees with intricate branch structures. The air is thick with mist, creating a soft, ethereal atmosphere. The lighting is diffused, with no harsh shadows.

Heidegger William J. Richardson,2013-12-20 This book one of the most frequently cited works on Martin Heidegger in any language belongs on any short list of classic studies of Continental philosophy William J Richardson explores the famous turn Kehre in Heidegger s thought after Being in Time and demonstrates how this transformation was radical without amounting to a simple contradiction of his earlier views In a full account of the evolution of Heidegger s work as a whole Richardson provides a detailed systematic and illuminating account of both divergences and fundamental continuities in Heidegger s philosophy especially in light of recently published works He demonstrates that the thinking of Being for the later Heidegger has exactly the same configuration as the radical phenomenology of the early Heidegger once he has passed through the turning of his way Including as a preface the letter that Heidegger wrote to Richardson and a new writer s preface and epilogue Amazon com **Logos and Revelation** Robert

ever be able to prove that anything exists outside it It is literally all that you and I can ever be Understanding that there is no Other beyond endless becoming born of desire and fear we should accept ourselves as eternal awareness alone The goals of this factual text are specific 1 To affirm the utter transparency of ourselves as effortless existence awareness 2 To affirm the world's manifestations as nothing but organs and conditions of borderless existence awareness 3 To reconcile awareness in its modes of feeling and volition potential and kinetic 4 To deconstruct all limiting paradigms of border person ego name form time space cause change duality context body independent arising death 5 To affirm awareness as ever absorbed singular beyond polarised notions of subject and object Those who entertain the notion that consciousness is some kind of evolutionary product that evolves from unconscious states without ever offering a single example of how this happens will resist the proofs in this book that the absolute condition of existence is consciousness itself and that these words and these worlds are its eternal affirmation Even a cursory summary of our position reveals its absoluteness in that body senses feelings and thoughts function effortlessly as expressions of boundless profundity Meanwhile our experience at any moment is absolute never polarised as seer and seen self and other The apparent infinite ramification of awareness as ego sense feeling thought imagination memory and so forth prevents us from surrendering in awe at awareness sole and extraordinary presence Our confusion lies in the perceived hiatus between absolute receptivity feeling and absolute volition power of concentration whereby awareness is obscured as ideas and their forms name atom time space cause Observe this pulsing this becoming of awareness Without utter receptivity how could anything be discerned How can awareness modify where the context is ever itself And where is the border between limited and limitless The issue turns on a single question To whom does any idea action displacement etc occur Who is the witness and dancer of all phenomena We must embrace the necessity for enquiry our responsibility for suffering and its cause limitation All our phantom boundaries mental conventions entrenched by habit are exposed as the thieves and dictators that they are What is ignorant suffers is born and dies is lost Ego that seeker desirer little I definer fixator achiever phantom gatekeeper material idea superimposition dictates experience enforcing the lie that forms independently arise where we drown in relativities and knowledge by inference and labelling replaces that of identity and our obsessively built personae amount to no more than cardboard cutouts Beyond self distraction beyond the clamour to build an ideational machine paradise beyond endless fear that we will cease to be our rock and role is to be as we are Peace is the goal a permanent security beyond the see saw of need dependency and dissatisfaction Yet there's no patience no surrender without understanding To deconstruct brings us detachment which opens the way to an effortless joy We then wear the world's jewels lightly knowing them to be the very delight of the Supreme While we ever appear to act we don't cling to action's seeds and consequences We become transparent simple ever now ever here borderless eternal If this text appears persistently abstract or solipsistic or impractical or absurd chew on it in bits with patience The writer has oftentimes hesitated fearing that a plethora of words only adds to the problem In the end he points a

finger to the sun plays tunes on the strings of our ever present awareness so that each utterance seeks to be a nugget a homecoming Our liberation does not lie in the passage of time or experience or any future state It lies in surrender to an unutterable miracle that we are one effortless absolute aware presence that while appearing to pulse as a relentless becoming ever affirms its own borderless freedom About the Author Australian author educator director composer and yoga teacher His fiction and non fiction works address core psychological and philosophic dilemmas **Synthesizing the Vedanta** Sean Doyle, Sean M. Heidegger W.J. Richardson, 2012-12-06 Dear Father Richardson It is with some hesitation that I attempt to answer the two principal questions you posed in your letter of March 1 1962 The first touches on the initial impetus that determined the way my thought would go 1 The other looks for information about the much discussed reversal in my development I hesitate with my answers for they are necessarily no more than indications of much more to be said The lesson of long experience leads me to surmise that such indications will not be taken as directions for the road of independent reflection on the matter pointed out which each must travel for himself Instead they will gain notice as though they were an opinion I had expressed and will be propagated as such Every effort to bring what has been thought closer to prevailing modes of representation must assimilate what is to be thought to those representations and thereby inevitably deform the matter 2 This preamble is not the lament of a man misunderstood it is rather the recognition of an almost insurmountable difficulty in making oneself understood The first question in your letter reads How are we properly to
