Nationalism and Intra-State Conflicts in the Postcolonial World Fonkem Achankeng, 2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other

human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles *The Kurds in Erdogan's Turkey* William Gurlay, 2020-05-28 This book examines the circumstances of the Kurds in 21st century Turkey under the hegemony of the AKP government After decades of denial oppression and conflict Kurds now assert a more confident presence in Turkey s politics but does increasing visibility mean a rejection of Turkey Recording Kurdish voices from Istanbul and DiyarbakA r Turkey s most important Kurdish populated cities this book generates new understandings of Kurdish identity and political aspirations Highlighting elements of Kurdish identity including Newroz the Kurdish language connections to religion landscape and cross border ties it offers a portrait of Kurdish political life in a Turkey increasingly dominated by its president Recep Tayyip Erdogan Within the context of Turkey s troubled trajectory towards democratisation it documents Kurdish narratives of oppression and resistance and enquires how Kurds reconcile their distinct ethnic identity and citizenship in modern Turkey **Comparative Kurdish Politics in the Middle East** Emel Elif Tugdar, Serhun Al, 2017-09-12 This edited volume introduces the political social and economic intra Kurdish dynamics in the Middle East by comparatively analyzing the main actors their ideas and political interests As an ethnic group and a nation in the making Kurds are not homogeneous and united but rather the Kurdish Middle East is home to various competing political groups leaderships ideologies and interests Although many existing studies focus on the Kurds and their relations with the nation states that they populate few studies analyze the Kurdish Middle East within its own debates conflicts and interests from a comparative perspective across Iran Iraq Turkey and Syria This book analyzes the intra Kurdish dynamics with historically grounded theoretically informed and conceptually relevant scholarship that prioritizes comparative politics over international relations **Extremism, Ancient and Modern** Sandra Scham, 2018-01-19 Near Eastern archaeology is generally represented as a succession of empires with little attention paid to the individuals labelled as terrorists at the time that brought them down Their stories when viewed against the backdrop of current violent extremism in the Middle East can provide a unique long term perspective Extremism Ancient and Modern brings long forgotten pasts to bear on the narratives of radical groups today recognizing the historical bases and specific cultural contexts for their highly charged ideologies The author with expertise in Middle Eastern archaeology and counter terrorism work provides a unique viewpoint on a relatively under researched subject This timely volume will interest a wide readership from undergraduate and graduate students of archaeology history and politics to a general audience with an interest in the deep historical narratives of extremism and their impact on today s political climate *The Kurds before a Regional Transformation* Ferhad Ibrahim Seyder, 2019 The Kurdish independence movement is in retreat Contributing factors for this withdrawal are the new outbreak of the Kurdish war in Turkey the structural weakening of the autonomous region Rojava in Syria proclaimed by the DUP and the setbacks in Iraqi Kurdistan caused by political and economic blockades The Kurdish autonomy projects will be reduced to a minimum

The independence referendum in Iraq and the Iraqi and Shiite militias military response are indicative of the reluctance of the Middle Eastern ruling forces to accept political and ethnical pluralism External actors as the USA the EU and the UN support the return of the strong state in order to support regional stability Kurdish elites and their political organisations are facing a crisis of their own The Kurdistan Workers Party propagates postmodern concepts of a post nation state in a region requiring stable political structures more than ever before In Iraqi Kurdistan ongoing internal fighting between the main actors sets back Nation and State building processes by decades All these factors are part of a phase of transition aiming at a new regional order whose outlines can't be anticipated yet

Questioning the Utopian Springs of Market Economy Damien Cahill,Martijn Konings,Adam David

Morton,2020-12-17 Revisiting the magnetic poles of Karl Polanyi and Friedrich Hayek on the utopian springs of political economy this book seeks to provide a compass for questioning the market economy of the twenty first century For Polanyi in *The Great Transformation* the utopian springs of the dogma of liberalism existed within the extension of the market mechanism to the fictitious commodities of land labour and money There was nothing natural about laissez faire The progress of the utopia of a self regulating market was backed by the state and checked by a double movement which attempted to subordinate the laws of the market to the substance of human society through principles of self protection legislative intervention and regulation For Hayek in *The Road to Serfdom* the utopia of freedom was threatened by the abandonment of individualism and classical liberalism The tyranny of government interventionism led to the loss of freedom the creation of an oppressive society and the despotism of dictatorship that led to the serfdom of the individual Economic planning in the form of socialism and fascism had commonalities that stifled individual freedom Against the power of the state the guiding principle of the policy of freedom for the individual was advocated Taking these different aspects of market economy as its point of departure this book promises to deliver a set of essays by leading commentators on twenty first century political economy debates relevant to the present conjuncture of neoliberalism The chapters in this book were originally published in a special issue of the journal *Globalizations* [The Kurds and the State](#) Denise Natali,2005-11-11 In tracing the evolution of Kurdish nationalism Denise Natali shows that contrary to popular theories there is nothing natural or fixed about Kurdish identity or the configuration that Kurdish nationalism assumes Rather Kurdish nationalism has been shaped by the development of nation states in the region Although Kurdish communities have maintained some shared sense of Kurdishness *Kurdayeti* the mobilization of Kurdish identity is interwoven with a much larger series of identities within the

political space of each Kurdish group Different notions of inclusion and exclusion have modified the political and cultural opportunities of Kurds to express their ethnic identities and opening the possibility of assuming alternative identities over time With this book Natali makes a significant contribution to theoretical empirical and policy based scholarship on the Middle East the plight of the Kurds ethnonationalism and ethnopolitical conflict Hers is the first comparative work to examine Kurdish nationalism as a function of diverse political spaces As a vital addition to the literature in the field this book will supplant a number of standard texts on the Kurds *The Kurdish Nationalist Movement* David Romano, 2006-03-02 This 2006 book analyses the Kurdish question through the lens of social movement theory
