identifying their general relevance to contemporary international criminal law At the same time the book recognises international criminal law s history of suppression or sublimation What stories has the discipline refused to tell What stories have been displaced by the ones it has told Has international criminal law s framing or telling of these stories excluded other possibilities And perhaps most important of all how can recovering the lost stories and imagining new narrative forms reconfigure the discipline Many of the trials examined in this book have hardly ever before been discussed others have been examined only in the most cursory manner Indeed until now no volume has been dedicated to telling the story of these trials that have yet to find a place in the international criminal law canon Providing a detailed analysis of these trials which took place in Europe Africa South America and Australasia in both historical and contemporary contexts this book is essential reading for anyone concerned with the development of international criminal law
