Summary of The 48 Laws of Power Alexander Cooper,2021-04-24 Summary of The 48 Laws of Power The desire for power is a fundamental human behavior When one feels that he has no power over others or events he is likely to be depressed Everyone wants power Those who pretend to have no desire for power are either deceiving themselves or attempting to deceive others Power is like a drug that makes you stronger each time you taste it The more you get the more you want Even though it is a fundamental human behavior the desire for power is considered impolite and selfish It is widely held that those who seek power must seem to have no interest in it and on the contrary they must pretend to care only about others The one who can disguise his pursuit of power with his care for others ends up becoming the most powerful This seems paradoxical but the fact remains that you cannot honestly and forthrightly pursue power You invariably have to disguise both your means and your ends The 48 Laws of Power by Robert Greene is a collection of laws based on historical and philosophical anecdotes These laws are amoral as they themselves don t take into account any sense of right or wrong Instead the laws focus on how one can increase their influence over any situation regardless of their moral consequences This book explores the nuances of manipulating people around you for establishing power The book focuses on how to gain power in any situation regardless of whether it s morally right or wrong and it uses specific anecdotes from history to illustrate the rules of power These laws may seem scandalously frank but you can apply

them without violating any of the strictures of public morality which according to Robert is the way to get the best results Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book **A Guide to Robert Greene's the 48 Laws of Power-Summary and Analysis, Key Ideas and Facts** I. arose because of this a courtier might take action against that courtier To prevent that from happening things were done in subtle and covert fashions in order to not draw attention All of this had to happen in a place that was supposed to be the most elegant and refined too So not only did everyone have to keep up their refined attitudes but they also had to be cunning To do this most turned to seduction charm and properly thought out strategies instead of the usual treachery that most power struggles consist of Nowadays things are a lot like those aristocratic courts You have to be devious to gain the power you re looking for and you have to do so while still appearing to be a fair and civilized person To some power games like this seem evil and wrong but the truth of the matter is that most people enter into these types of games on some level Even those who denounce power games and claim to have the moral high ground are more than likely playing a game of their own while trying to appear innocent At times these people may even be the biggest players and most manipulative individuals That is because their constant shunning of power games can make those around them believe that they d never do anything underhanded leaving them free to play their game undetected When the world seems to be full of scheming courtiers looking to get ahead there is really no way you can get through life without playing some kind of power game Since this game is inescapable you can only benefit by learning how to play it properly To do this you have to look at the world a certain way and learn the laws of power and acquire some basic skills that will allow you to apply those laws easily throughout your life

Basic Skills for Playing the Power Game These aren t hard skills but you ll want to learn them before moving onto the laws of power When you master them you ll see how easy it really is to play the power game to get what you re looking for out of life
