The Second Long March Peter Kien-Hong YU, 2011-11-03 This work written by an expert in the politics of Mainland China and Taiwan looks at the role the Constitution of the Republic of China has played in the development of Taiwan since 1949 and its potential influence on the People's Republic of China The Chinese Communists conducted the first long march for the sake of the majority of Chinese people with the victory of MAO Zedong In the second long march CHIANG Kai shek and his successors tried to convert the Chinese mainland from a Communist totalitarian system into a democratic prosperous one by relying on the spirit of the Republic of China ROC constitution and by setting itself as a good example in gradually guaranteeing freedom and democracy Needless to say this march is long and difficult The Second Long March challenges other models and theories on the study of the relationship between the ROC Taiwan area and mainland China or the People's Republic of China PRC since China became politically as opposed to legally divided in December 1949 Arguably it is the ROC Constitution that has helped ROC citizens to live in a non Communist or anti Communist political system Actively promoting democracy and freedom on the Chinese mainland neidi can further guarantee the Taiwan area's survival The book will provide valuable scholarship of interest to anyone researching the political history of China and its prospects for democratization

The Minjian Avant-Garde Chang Tan, 2024-02-15 The Minjian Avant Garde studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The

Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment

The Long March M. Frampton, 2016-04-30 Sinn F in has undergone a startling transformation in the last two and a half decades Under the leadership of its two principal figures Gerry Adams and Martin McGuinness the mainstream party of Irish republicanism has changed beyond almost all recognition It has moved from the margins of political life on both sides of the Irish border to a position where it occupies the Deputy First Minister s chair in Northern Ireland and was viewed until recently as the coming force in southern Irish politics In this book the contours of Sinn F in s recent evolution are considered with particular emphasis on the various strategic objectives that the party has set itself Sinn F in s attitude to the Northern Irish peace process is considered at length here and the book challenges the conventional wisdom that would juxtapose republican politics and republican war the notion being that during the 1990s republicans exchanged the latter for the former and were therefore tamed into becoming a normal political party The central argument here is that such a view rests on a false dichotomy It has been said that war is merely the continuation of politics with respect to Sinn F in it is argued the inverse formulation needs also to be considered with republican politics seen by republicans themselves as an extension of the war In following through this line of argument this book attempts to consider republicans on their own terms to take their thoughts and words seriously and to examine their recent history accordingly

Words and Their Stories Ban Wang, 2010-10-05 As China joins the capitalist world economy the problems of social disintegration that gave rise to the earlier revolutionary social movements are becoming pressing Instead of viewing the Chinese Revolution as an academic

study these essays suggest that the motifs of the Revolution are still alive and relevant The slogan Farewell to Revolution that obscures the revolutionary language is premature In spite of dislocations and ruptures in the revolutionary language to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations Earlier meanings of revolutionary words may persist or coexist with non revolutionary rivals Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested **China and**

International Security Donovan C. Chau, Thomas M. Kane, 2014-04-17 The first work of its kind this strategic assessment of China's national security reveals the nation's intentions capabilities and threats and their implications for the United States and the world As China continues to develop the strategic means to advance its national interests in Asia and around the world assessing its role in international security is the greatest strategic challenge now faced by the United States and its allies China and International Security facilitates this critically important understanding analyzing topics that range from strategic geography and orientation to gender ratios Using detailed case studies and sharing expert insights the work provides historical internal and contemporary analyses that reveal the nature and character of China's national security This three volume set is written for scholars students and policymakers The volumes offer in depth articles penned by intelligence professionals and journalists as well as entries by scholars in fields as diverse as international politics history and strategic studies While other works may attempt to predict the future of China's rise or the nature of China's future bilateral relationships none so thoroughly examines the totality of China's domestic regional and international security and their implications **The Evolution of Agricultural Credit during China's Republican Era, 1912-1949** Hong Fu, Calum G.

Turvey, 2018-05-30 In the modern era China's rural credit landscape is transforming at a dizzying rate but in terms of financial development these changes represent a second attempt in the past 100 years to reform China's credit institutions and provide credit access to farmers The first period was during the Republican era between 1912 and 1949 which saw the first attempts at formalizing rural credit with the Industrial and Agricultural Banks This book uses primary data and papers to present a full picture of the difficult conditions China faced during the Republican era in order to explain the myriad reforms to the country's rural credit system Fu and Turvey build a narrative around these developments based on the foundation of thousands of years of dynastic rule in order to explore the specific impacts of drought floods famine communist insurgencies Japanese expansionism and more on credit access supply and demand They consider powerful personalities such as J B Taylor John Lossing Buck Paul Hsu and Timothy Richards and influential institutions from Nanking and Nankai Universities to the China International Famine Relief Commission that sought ways to end the cycle that trapped the vast majority of Chinese farmers in poverty This rich wide ranging and stimulating work will appeal both to readers focused on present day China and those who want to understand China's rural economy and credit policies in a historical context

The Promise of the Revolution Daniel B. Wright, 2003-03-25 The common Western image of China is confined to the

large cities of the country's relatively wealthy east coast. But what does the country look like to most Chinese those from the vast hinterland. The Promise of the Revolution reflects the day to day realities of the hundreds of millions of people in China's interior regions fifty years after Communist takeover. A half century ago Mao Zedong proclaimed that the Chinese people have stood up. Yet most of China's millions lay in abject poverty. What has become of the promises of the revolution. Has anything changed. Wright's years of observation and conversation at the grassroots level in Guizhou, western China's poorest province, from hiking high into mountain villages to traveling with migrant laborers to retracing the Long March trail even to golfing with the province's most affluent reveal a rich blend of human fulfillment, disappointment and perseverance. This unusually perceptive and personal account with its vivid immediacy educates and entertains but most important it makes an original and invaluable contribution to our understanding of China's hidden majority.
