Illustrating Economics Kenneth E. Boulding,2017-07-05 This volume is a sampling of quips verses drawings and even the music of one of the most original and versatile minds of the twentieth century Kenneth Boulding prominent economist lecturer and author The driving force behind Kenneth Boulding s wideranging book is that he truly enjoys all that he does Indeed his greatest accomplishment may very well be that he was a profoundly happy man This is reflected in works that are laced with beauty wit and extraordinary imagery works that are often composed and appeared in the most unexpected of places In the midst of one of the classic textbooks of his generally staid profession Economic Analysis Boulding introduced the bathtub theorem Illustrating Economics Beasts Ballads and Aphorisms is a collection of similar instances and as such it is fun The reader should be advised that the book contains traps Boulding coats his ideas with sugar to please his audience as well as promote consumption He describes peace as a drab girl with an olive branch corsage whom no red blooded American or Russian could conceivably warm up to The reader smiles at the recognition of the truth inherent within the image and ponders the irony of why so fine a state as peace should be regarded as dull and so ugly a condition as war should be regarded as romantic This book is for enjoyment but it should carry the following warning Caution Reading this may be stimulating to your intellect
