Commission Decisions United States. Federal Trade Commission,1981 *City on the Moon* Murray Leinster,2025-08-13 Welcome to the CITY ON THE MOON where survival is a daily grind and one wrong move can spell disaster For Joe Kenmore life on the Moon was already a high wire act The inhospitable lunar landscape the constant reliance on technology the isolation it was a tough gig but one he d embraced for the thrill of pioneering humanity s next frontier But tough is about to get a cosmic sized upgrade On the very day the Earth shuttle is screaming towards its lunar rendezvous disaster strikes The mountain vital for the shuttle s landing guidance systems doesn t just tremble it explodes and crumbles into a catastrophic avalanche Chaos erupts The meticulously planned landing sequence is in tatters and with it potentially the lives of everyone aboard the incoming vessel Among those passengers is Arlene Gray the woman Joe Kenmore has been counting the seconds to reunite with Suddenly this isn t just a professional crisis it s intensely personal While his heart hammers for Arlene Kenmore and his sharp colleague Moreau quickly realize the avalanche was no freak accident Their investigation points to a chilling conclusion deliberate sabotage Now the clock isn t just ticking it s a time bomb They re in a desperate white knuckle race to repair the critical landing beam before the shuttle passes its point of no return condemning it to a fiery doom on the lunar surface Arlene s fate the lives of the crew and passengers and the integrity of the entire Moon City operation hang precariously in the balance But the stakes are astronomically higher than even a shuttle crash The City on the Moon isn t just a collection of domes and tunnels it s a critical outpost a dedicated research facility pushing the boundaries of atomic science experiments far too perilous to conduct on Earth Its sole purpose To supply a strategically vital space station orbiting between Earth and Moon a station where humanity s future is being forged This station is on the verge of an announcement that will determine whether humankind boldly strides towards the stars or retreats allowing civilization to stagnate and

decline A wrong signal or worse the station s destruction could seal that grim fate And as if a sabotaged landing system and an impending galactic decision point weren t enough Kenmore uncovers a more sinister conspiracy Shadowy powerful forces are actively working against human progress These unseen enemies don t want humanity reaching for the stars they prefer a species confined and controlled Their methods are brutal and direct sabotage destruction and sowing chaos to ensure the City on the Moon and Earth s ambitions with it fail spectacularly Can Joe Kenmore fueled by love and a profound sense of destiny outwit the saboteurs restore the landing systems in time to save Arlene and the shuttle and protect the City from becoming a desolate tomb The future of humanity from the dusty plains of the Moon to the furthest reaches of the galaxy depends on it
