Office 2003 Timesaving Techniques For Dummies Woody Leonhard, 2004-05-21 Wouldn't it be a waste to go on a spectacular exotic vacation abroad and just hang out at the hotel pool? Wouldn't it be a waste to buy a new iPod, download four favorite songs and play them over and over? Most people with Office 2003 are wasting a lot of software power and a lot of time. They do the same routine things in the same routine ways and haven't begun to explore the capabilities of Office 2003. If you're one of them, *Office 2003 Timesaving Techniques For Dummies* gets you out of your rut and into action. It provides over 70 timesaving techniques for Word, Excel, Access, Outlook, and PowerPoint. Most of the tips work with Office 2000 and Office XP too. You'll customize Office to meet your needs and start working like a pro in no time with easy-to-use tricks, tips, and techniques for streamlining your toolbars. Word alone has dozens to choose from. Setting up Outlook, searching with folders, organizing with flags, and dealing with spam. Taking proper security measures, including using and updating an antivirus package and avoiding potentially dangerous file extensions. Editing and laying out impressive Word documents. Using keyboard shortcuts. Diving into more advanced Office skills such as writing macros, setting up templates, and using multimedia with PowerPoint. Using Excel to build self-verifying spreadsheets. Running totals and subtotals in Access. Combining applications to print holiday greetings and run an electronic newsletter. Written by Woody Leonhard, author of *Windows XP Timesaving Techniques For Dummies* and the bestseller *Windows XP All in One Desk Reference For Dummies*, this guide helps you eliminate extra steps and little annoyances and do things you probably didn't know you could do, such as building e-mail stationery, calculating sales tax with the Lookup Wizard, making professional labels, encrypting messages, recording narration for PowerPoint presentations. Student's Guide: Final Year Project Thesis (2nd Edition) Dr. Fadi Safieddine, 2015-09-09 As a final year supervisor for twelve years on the degree masters and PhD I have noticed time and time again students approached their thesis confused and unsure what is expected from them and rightly so What is involved in the write up of the final year thesis is not something students are introduced to during their studies The structure content and format of a thesis are only understood by seeing good examples A thesis is the largest assignment a student will ever likely to do and will resemble nothing they have done before A final year thesis has to demonstrate academic structure content and integrity something that is not always presented clearly by supervisors As a supervisor I designed a handout to help and guide my students This handout became very popular as students shared it with their friends After many years of editing and improving my notes I have decided to publish it as a book The second edition of the book comes with more examples Taking away the fear of the writing up and having the confidence that a great thesis is achievable has helped my students focus instead on finding creative challenging and inspiring projects
