Children's Books in Print, 2007, 2006 *Making Minds Less Well Educated Than Our Own* Roger C.
Schank, 2004-04-26 In the author's words This book is an honest attempt to understand what it means to be educated in today's
world His argument is this No matter how important science and technology seem to industry or government or indeed to
the daily life of people as a society we believe that those educated in literature history and other humanities are in some way
better informed more knowing and somehow more worthy of the descriptor well educated This 19th century conception of
the educated mind weighs heavily on our notions on how we educate our young When we focus on intellectual and scholarly
issues in high school as opposed to issues such as communications basic psychology or child raising we are continuing to rely
on outdated notions of the educated mind that come from elitist notions of who is to be educated and what that means To
accommodate the realities of today's world it is necessary to change these elitist notions We need to rethink what it means to
be educated and begin to focus on a new conception of the very idea of education Students need to learn how to think not
how to accomplish tasks such as passing standardized tests and reciting rote facts In this engaging book Roger C Schank sets
forth the premises of his argument cites its foundations in the Great Books themselves and illustrates it with examples from
an experimental curriculum that has been used in graduate schools and with K 12 students *Making Minds Less Well*
Educated Than Our Own is essential reading for scholars and students in the learning sciences instructional design
curriculum theory and planning educational policy school reform philosophy of education higher education and anyone
interested in what it means to be educated in today's world **The Well-Educated Mind** Susan Wise Bauer, 2015-11-05
The enduring and engaging guide to educating yourself in the classical tradition Have you lost the art of reading for pleasure

Wise Bauer provides a welcome and encouraging antidote to the distractions of our age electronic and otherwise Newly

the earliest works of Hippocrates to the discovery of the asteroid that killed the dinosaurs *The Well Educated Mind* offers

detailed instructions on how to read each type The annotated lists at the end of each chapter ranging from Cervantes to Cormac McCarthy Herodotus to Laurel Thatcher Ulrich Aristotle to Stephen Hawking preview recommended reading and encourage readers to make vital connections between ancient traditions and contemporary writing The Well Educated Mind reassures those readers who worry that they read too slowly or with below average comprehension If you can understand a daily newspaper there s no reason you can t read and enjoy Shakespeare s sonnets or Jane Eyre But no one should attempt to read the Great Books without a guide and a plan Bauer will show you how to allocate time to reading on a regular basis how to master difficult arguments how to make personal and literary judgments about what you read how to appreciate the resonant links among texts within a genre what does Anna Karenina owe to Madame Bovary and also between genres In her best selling work on home education The Well Trained Mind the author provided a road map of classical education for parents wishing to home school their children that book is now the premier resource for home schoolers In The Well Educated Mind Bauer takes the same elements and techniques and adapts them to the use of adult readers who want both enjoyment and self improvement from the time they spend reading Followed carefully her advice will restore and expand the pleasure of the written word
