The Craft of Wargaming Jeffrey Appleget,Robert Burks,Frederick Cameron,2020-09-01 The Craft of Wargaming is designed to support supervisors planners and analysts who use wargames to support their organizations missions The authors focus on providing analysts and planners with a clear methodology that allows them to initiate design develop conduct and analyze wargames Built around the analytic wargaming construct organizations or individuals can easily adapt this methodology to construct educational and experiential wargames The book breaks the wargame creation process into five distinct phases Initiate Design Develop Conduct and Analyze For each phase the authors identify key tasks a wargaming team must address to have a reasonable chance at designing developing conducting and analyzing a successful wargame While these five stages are critical to the process of constructing any wargame it should be understood that the craft of wargaming is learned through active participation not by reading or watching This craft must be practiced as part of the learning process and the included practical exercises provide an opportunity to experience the construction of an analytical wargame The authors also discuss critical supervisory tasks that are essential to manage the wargaming team s efforts While the creators are focused on the design and development of the game itself supervisors must set conditions for the wargame to be a success best

practices and beware of the pitfalls that may set the wargame up to fail worst practices The book demonstrates using the analytical wargaming framework to create relevant and useful planning wargames It also reinforces using the analytical wargaming framework for seminar wargames that without rigor are useless The book demonstrates the benefits of using the analytical wargaming process to design educational and experiential games
