Congress. House. Committee on the Judiciary. Subcommittee on Immigration, Border Security, and Claims,2007 **INTELLIGENCE AND PRIVATE INVESTIGATION** Hank Prunckun,2013-07-01 While many books have been written about private investigation this text is

different in that it does not deal with the subject from traditional perspectives. It examines how private investigation has grown particularly since 9/11 into an exacting and sophisticated occupation. The book looks at the key issues in what it describes as private intelligence, that is, intelligence activities practiced by operatives other than law enforcement, national security, or the military. Eleven world experts contribute chapters addressing key practice issues concerning the skills, abilities, and knowledge necessary in the new realm of private intelligence. The initial three chapters provide a report on present-day private intelligence and offer an overview of the specifics of intelligence issues that follow. Eleven subsequent chapters take the reader progressively through various intelligence-related subjects. Major topics presented include skills for intelligence-led private investigators, open source intelligence, target profiling, fraud intelligence, political intelligence, anti-terrorist and anti-gang intelligence, illicit organizations, and financial intelligence, counterintelligence, clandestine communication methods, preparing a prosecution brief, legal issues for intelligence-led private investigators, and ethical issues for intelligence-led private investigators. Additionally, the text contains several features that will appeal to both students and instructors. These include a set of key terms and phrases, a number of study questions, and learning activities in each chapter. Written in a clear and concise style, the text provides a foundation of practical and useful information. It will be a most important and unique resource for undergraduate students in private investigation courses, as well as intelligence practitioners and general readers interested in self-development study.
