Trade eBooks in Libraries Paul Whitney, Christina Castell, 2016-12-05 With the advent of downloadable retail eBooks marketed to individual consumers for the first time in their history libraries encountered an otherwise commercially

available text format they were prevented from adding to their collections Trade eBooks in Libraries examines the legal frameworks which gave rise to this phenomenon and advocacy efforts undertaken in different jurisdictions to remove barriers to library access The principal authors provide a general historical overview and an analysis of library eBook principles developed by a variety of library associations and government reviews In addition experts from twelve countries present summaries of eBook developments in their respective countries and regions *Designing Brand Identity* Alina Wheeler,2012-10-11 A revised new edition of the bestselling toolkit for creating building and maintaining a strong brand From research and analysis through brand strategy design development through application design and identity standards through launch and governance *Designing Brand Identity Fourth Edition* offers brand managers marketers and designers a proven universal five phase process for creating and implementing effective brand identity Enriched by new case studies showcasing successful world class brands this Fourth Edition brings readers up to date with a detailed look at the latest trends in branding including social networks mobile devices global markets apps video and virtual brands Features more than 30 all new case studies showing best practices and world class Updated to include more than 35 percent new material Offers a proven universal five phase process and methodology for creating and implementing effective brand identity

Engage! Transforming Healthcare Through Digital Patient Engagement Edited by Jan Oldenburg, Dave Chase, Kate T. Christensen, MD, and Brad Tritle, CIPP,2012-12-01 This book explores the benefits of digital patient engagement from the perspectives of physicians providers and others in the healthcare system and discusses what is working well in this new digitally empowered collaborative environment Chapters present the changing landscape of patient engagement starting with the impact of new payment models and Meaningful Use requirements and the effects of patient engagement on patient safety quality and outcomes effective communications and self service transactions The book explores social media and mobile as tools presents guidance on privacy and security challenges and provides helpful advice on how providers can get started Vignettes and 23 case studies showcase the impact of patient engagement from a wide variety of settings from large providers to small practices and traditional medical clinics to eTherapy practices *Theory and Practice of Specialised Online Dictionaries* Pedro A. Fuertes-Olivera,Sven Tarp,2014-09-23 This book is the first comprehensive monograph on the Function Theory of Lexicography which originated at the Aarhus School of Business Aarhus University Function Theory considers dictionaries to be tools that are constructed for assisting specific users with punctual needs in specific usage situations e g communicative oriented situations and cognitive oriented situations The book s main focus is on defending the independent academic status of lexicography and its corollary The process of designing compiling and updating specialised online dictionaries needs a theoretical framework that addresses general and specific aspects The former are common to all types of information tools the latter are mainly dependent on the media for which the information tool is constructed and their specific target users This books offers both aspects and moves from the highest level of abstraction to very detailed

aspects of lexicographic work e.g. how to convert an originally conceived polyfunctional online dictionary into several monofunctional usage based ones. The book illustrates that the theory and the methodology currently used by advocates of the Function Theory of Lexicography offers better results than other approaches and therefore makes its case for proposing the Function Theory for terminological terminographical work. *Finding Freedom* Donna J. Stundahl, 2015-01-29 Do you ever feel like you're wandering in a wilderness alone? Are you searching for the same freedom the children of Israel sought only to find oppression at every turn? Are you looking for a life filled with promise only to be repeatedly disappointed? You are not alone. We are all on a journey from slavery to sin to the ultimate Promised Land in Heaven where we will be free. Everything in between is a wilderness experience. Moses expounded on freedom in the wilderness. He explained exactly where to find it and how to get there. He clearly spoke to the Jew and the foreigner. The question is: Does He speak to the Christian as well? In her book *Finding Freedom*, Dr. Stundahl will wander through the wilderness of Deuteronomy and explore the Hebraic roots of Christianity. *Finding Freedom* reveals the concepts of the Torah assembled in the same format in which they were studied by the Jewish communities since the Babylonian exile. These concepts include humility, idolatry, evil speech, teaching, learning, remembering, and listening. The analysis of each portion of the Torah considers its applicability to the life of a Christian. As the history of Christianity and the Jewish elements of the Gospel are discovered, the shadows of Jesus Christ are revealed. Wherever you are in the wilderness of your life, you too can find the freedom intended just for you. Experience the reading, the writing, and the dance of the Torah. **Narratives of Inequality** Melissa Kennedy, 2017-11-08 This book reveals the economic motivations underpinning colonial, neocolonial, and neoliberal eras of global capitalism that are represented in critiques of inequality in postcolonial fiction. Today's economic inequality suffered disproportionately by indigenous and minority groups of postcolonial societies in both developed and developing countries is a direct outcome of the colonial era imposition of capitalist structures and practices. The longue durée world systems approach in this study reveals repeating patterns and trends in the mechanics of capitalism that create and maintain inequality. As well as this, it reveals the social and cultural beliefs and practices that justify and support inequality yet equally which resist and condemn it. Through analysis of narrative representations of wealth accumulation and ownership structures of internal inequality between the rich and the poor within cultural communities and the psychology of capitalism that engenders particular emotions and behaviour, this study brings postcolonial literary economics to the neoliberal debate, arguing for the important contribution of the imaginary to the pressing issue of economic inequality and its solutions. *The No Shelf Required Guide to E-book Purchasing* Sue Polanka, 2011-12 Library Technology Reports vol 47 no 8 According to recent studies, e-book penetration in libraries of all types is rising rapidly. Creating or expanding an e-book collection is a complicated challenge. In addition to facing the same challenges a librarian would face in developing a print collection, librarians developing an e-book collection also face a host of unprecedented legal, technological, and vendor challenges. This issue of *Library Technology*

Reports will examine these challenges focusing on strategies for purchasing e books in a consortium working with vendors implementing e reader programs in an academic environment and purchasing electronic textbooks Although the challenges are significant this issue will show how they can be overcome and how the effort it takes to develop an e book collection is well worth the effort

Handbook of Research on Educational Communications and Technology J. Michael

Spector, M. David Merrill, Jan Elen, M. J. Bishop, 2013-07-03 The 4th edition of the Handbook of Research on Educational Communications and Technology expands upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies Chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten expanded and updated Additionally new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest Each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research including major findings and methodologies employed The Handbook authors continue to be international leaders in their respective fields the list is cross disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community

Creating Identity Jayashree Kamblé, 2023-04-11 While the world often categorizes women in reductive false binaries careerist versus mother feminine versus fierce romance novels a unique form of the love story offer an imaginative space of mingled alternatives for a heroine on her journey to selfhood In *Creating Identity* Jayashree Kambl examines the romance genre with its sensile flexibility in retaining what audiences find desirable and discarding what is not by asking an important question Who is the romance heroine and what does she want To find the answer Kambl explores how heroines in ten novels reject societal labels and instead remake themselves on their own terms with their own agency Using a truly intersectional approach Kambl combines gender and sexuality Marxism critical race theory and literary criticism to survey various aspects of heroines identities such as sexuality gender work citizenship and race Ideal for readers interested in gender studies and literary criticism *Creating Identity* highlights a genre in which heroines do not accept that independence and strong loving relationships are mutually exclusive but instead demand both echoing the call from the very readers who have made this genre so popular
