Rockets Gerard Brennan, 2013-12-05 A gang of fourteen year old hoods rampage through West Belfast indulging in violent street crime and mugging pensioners to pay for cider cigarettes and sweets Branded scum by a shocked community and pursued by a dogged local vigilante the young gangsters antisocial behaviour soon escalates into something much worse The Wire This is Barbed Wire A cheeky slice of urban noir a drink soaked drug addled journey into the violent underbelly of one of Europe's most notorious ghettos Wee Rockets makes The Outsiders look like the Teletubbies Colin Bateman For fans of A Clockwork Orange Kidulthood The Wire Boyz n the Hood or City of God set in Belfast and for anyone with an open mind about disaffected disenfranchised youth in modern urban society What they're saying Gerard Brennan stands apart from the Irish crime fiction crowd with a novel rooted in the reality of today's Belfast The author's prose speaks with a rare authenticity about the pain of growing up in a fractured society shot through with a black humour that can only come from the streets Wee Rockets is urban crime fiction for the 21st century and Brennan is a unique voice among contemporary Irish writers Stuart Neville In Wee Rockets Gerard Brennan has written a fast paced exciting story of West Belfast gang culture brimming with violence authentic street dialogue and surprising black humour This is a great debut novel Brennan takes us into the heart of Belfast's chav underclass in a story that lies somewhere in the intersection between The Warriors Colin Bateman and Guy Ritchie This is the first in what undoubtedly will be a stellar literary career Adrian McKinty Brennan impressed me hugely with his debut novella The Point and Wee Rockets has cemented my opinion that he belongs among the top rank of Northern Irish crime writers Loitering With Intent So assured and mature you'd think this was his eight or ninth book not one of his first Spinetingler Magazine This is a tremendous book and I urge you to read it I Meant To Read That From the author I think the main theme is that of nature versus nurture The characters are presented as products of their environment I don't think it's a judgemental book it simply shows you how these kids and adults react to certain situations The reader may not always approve of the action taken but hopefully they can understand what has informed it It's also an exploration into how good people can do bad things and bad people can do good I've purposely tried to blur that line so that the characters aren't simply black or white Morally they operate in shades of grey It's my hope that a character you hated in the first chapter can grow into a hero by the final act and vice versa **SURVIVAL: The Event [1]** Thomas A

China Mark Norcliffe, 2006 Researched and written by the Head of the International Department of the Society of Motor Manufacturers and Traders this in depth report analyses the trends and prospects for the automotive industry in China It provides an authoritative market overview and analysis of market data trends economic climate government policy geographical factors It then looks in detail at the Passenger Car Sector the Commercial Vehicle Sector and the Components Sector in each case providing analysis of key players their operations market share strategies likely future successes and failures Finally the report assesses China's automotive industry from a comparative global perspective *SALTO - UMA REVOLUÇÃO EM ESTRATEGIA CRIATIVA*, *Зарубежные концепт-кары и прототипы. Конец XX - начало XXI века (1997-2006)* Александр Ельчищев, 2018-10-06 XX XXI 1997 2006 Light Vehicle Tyres Neil Mullineux, 2004 The tyre industry is the largest single rubber manufacturing industry in the world The high performance demanded of tyres has led to extensive research and development in this field and constant innovation This report takes an overview of the latest technology combined with the market situation worldwide Three large companies Bridgestone Goodyear and Michelin now dominate the world tyre market with a share of about 56 per cent There then follow four mid sized companies which have about 18 per cent of the world market Continental Sumitomo Pirelli and Yokohama with a combined share of 17.6 per cent In total eleven companies account for 81.6 per cent of the world market Even though the largest companies have a turnover well in excess of USD10bn they remain largely specialist tyre manufacturers Many of the smaller companies also concentrate almost exclusively on tyres However the medium sized companies are diversifying away from tyre manufacturing Unusually if not uniquely in the automotive components industry the tyre manufacturers only sell a minority of their output to OEMs component is the size of the replacement market or aftermarket three quarters of road tyres are sold as replacement tyres and only one quarter as original equipment The big three tyre manufacturers dominate the OE market but other large regional players also have a share particularly in Europe Worldwide the replacement tyre market for light vehicles

represents about 714m tyres The replacement tyre market is certainly more profitable for the tyre manufacturers but it has distinct problems The general problems of slow growth and market maturity are exacerbated by cyclical growth in supply to OEMs Despite the poor profitability of sales to OE customers and even though the replacement market represents over 70 per cent of the passenger car tyre industry s sales tyre makers profitability is also cyclical The replacement market is a relatively profitable sector of the overall tyre market but it cannot compensate for the vagaries of the OE market A traditional indication of market maturity is continual pricing pressure in the market small competitors to keep continual pressure on prices In broad terms a tyre which cost USD69 90 in 1979 sold for USD41 02 in 2003 The major companies within the tyre industry are all constrained by the laws of economics and subject to similar commercial pressures In very broad terms the cost of tyre manufacture breaks into three parts raw materials labour and fixed costs The tyre industry has high fixed costs making it extremely difficult to improve returns unless costs are cut or market share gained Raw materials typically represent 25 per cent of the selling price of a car tyre Labour costs represent about 30 per cent of sales and this has led to a move for manufacture in lower labour cost countries This has been helped by relatively low transportation costs for the inter regional movement of tyres about USD1 2 for a passenger tyre In the last decade all manufacturers have tried to increase productivity in existing o0perations in order to become low cost producers The continuing drive for improved productivity has resulted in excess capacity in many areas and product sectors than demand There is a close relationship between aggregate supply and profitability for individual tyre companies As a result there have been gradual moves towards consolidation Before 1985 a dozen large companies dominated the world tyre market but after a rapid series of mergers and acquisitions seven companies emerged with three quarters of the market
