Introduction

If one were allowed to describe John Wooden, he would grant him several titles. He is a proficient coach, a true leader, a role model, and a transfixing author whose books are admired around the world. One of his most compelling books is *Wooden on Leadership: How to Create a Winning Organization*. In this book, he presents what most people perceive to be inherent based on his true leadership. He champions excellent leadership concepts that can make a leader establish a successful organization if he or she puts them into practice. Unlike most leadership books that are highly studious, Wooden is more of a teacher who helps the reader to understand the concepts through the eyes of a coach. He picks almost every leadership style in the contemporary world and strives to compare it with daily coaching experiences. He then proceeds to explain how his coaching experiences relate to real-life organizational and personal issues. Thus, readers can easily learn the techniques of being the coach of their personal life or organizations. The discussion in this paper examines some of the main themes that are outlined in Wooden's book. The goal is to show how they can be applied in the actual life or an organizational setting.
