Encyclopedia of Language and

Education Leo van Lier, P. Corson, 2013-11-01 **ENCYCLOPEDIA OF LANGUAGE AND EDUCATION** This is one of eight volumes of the Encyclopedia of Language and Education published by Kluwer Academic. The publication of this work signals the maturity of the field of language and education as an international and interdisciplinary field of significance and cohesion. These volumes confirm that language and education is much more than the preserve of any single discipline. In designing these volumes we have tried to recognise the diversity of the field in our selection of contributors and in our choice of topics. The contributors come from every continent and from more than 40 countries. Their reviews discuss language and education issues affecting every country in the world. We have also tried to recognise the diverse interdisciplinary nature of language and education in the selection of the editorial personnel themselves. The major academic interests of the volume editors confirm this. As principal volume editor for Volume 1 Ruth Wodak has interests in critical linguistics, sociology of language and language policy. For Volume 2 Viv Edwards has interests in policy and practice in multilingual classrooms and the sociology of language. For Volume 3 Bronwyn Davies has interests in the social psychology of language, the sociology of language and interdisciplinary studies. For Volume 4 Richard Tucker has interests in language theory, applied linguistics and the implementation and evaluation of innovative language education programs.

Knowledge about language Leo van Lier, David Corson, 1999-05-31 This book offers a comprehensive perspective on metalinguistic knowledge and processes and presents a coherent argument for building an element of language awareness into the language curriculum at all educational levels. It offers a balanced perspective on first and second language acquisition, classroom talk, language use in the multicultural workplace, translation, Esperanto, whole language, historical perspectives, critical pedagogy, the education of language teachers, the teaching of grammar, phonology and writing.
