world's second largest exporter of cocoa behind Côte d'Ivoire and one of the continent's largest gold producers while new reserves of oil and gas have helped further expand its resource wealth. The economy saw expansion of 7.1% in 2013 while inflation reached 14.5% in March 2014. Although inflation and balance of payments remain the country's biggest economic challenges, measures have been taken to strengthen the cedi and curb inflation.

Labour Law and Social Progress Roger Blanpain, Frank Hendrickx, 2016-04-22 For forty years the international watchword has been deregulation of labour law and of social security. Now however the rise in unemployment and lack of employment security, the dizzying inequality gulf and the environmental disasters and mass migrations caused by this deregulation are generating an impetus that defines social justice no longer merely in terms of the equitable distribution of resources but also and often primarily in terms of the just recognition of persons. This collection of incisive essays recognizes that the growing interdependence of all of the people of the earth demands that labour rights are understood as an aspect of human rights and thus envisaged at the international level. Contributions by twenty outstanding labour law scholars from a range of countries worldwide provide in-depth analysis of such aspects of the debate as the following: collective action in the interests of market effectiveness as well as fair outcomes for workers; right to strike; resilience of trade unions and collective bargaining as mechanisms of labour market regulation; importance of national policy despite the influence of global market forces in shaping national outcomes; work as the locus of the relationship between humans and nature; search for a legal foundation for corporate social responsibility; litigation as an alternative to collective bargaining; the role of collective labour relations for immigrants and disabled people; lessons that developed countries could learn from mechanisms pioneered in developing countries in coping with conditions of austerity and the trap of soft law; and of declarations of intent that weigh lightly in the face of the power of the interests at play in international trade. The essays take stock of the dimensions of the current situation and also explore paths leading to a better achievement of social justice in labour law. These essays recognize that economic development and the pursuit of social justice are interwoven in a quest for social progress that includes mechanisms designed to eliminate unjustifiable inequality. For lawyers and other parties committed to the emerging political will to not only respect fundamental rights but more broadly improve labour and environmental protection, this book opens abundant avenues that can be pursued in practice and in policy. The volume is based on a selection of papers presented at the 21st World Congress of the International Society for Labour and Social Security Law in Cape Town in 2015.

Private Law in the 21st Century Kit Barker, Karen Fairweather, Ross Grantham, 2017-01-26 This book brings together a wide range of contributors from across the common law world to identify and debate the principal moral and systemic challenges facing private law in the remaining part of the twenty-first century. The various contributions identify serious problems relating to complexity and overload; threats to research and education; the law's unintelligibility; the unsatisfactory nature of the law reform process; and a general lack of public engagement. They consider the respective future roles of statutes, codes and judge-made law in the form of both

common law and equitable rules They consider how best to organise the private law system internally and how to co ordinate it externally with other public and economic systems human rights regulation insurance markets and social security frameworks They address the challenges for private law presented by new forms of technology and by modern demands for the protection of new and intangible forms of moral interest such as interests in privacy vindication and personal choice They also engage with the critical contemporary debates about access to and the privatisation of civil justice The work is designed as a source of inspiration and reference for private lawyers as well as legislators policy makers and students **A New**

Dawn for the Second Sex Karen Vintges,2025-10-01 To what extent is Simone de Beauvoir s study *The Second Sex* still relevant From her work it emerges that patriarchy is a many headed monster Over the past decades various heads of this monster have been slayed important breakthroughs have been achieved by and for women in law politics and economics Today however we witness movements in the opposite direction such as a masculinist political revival in different parts of the world the spread of the neoliberal myth of the Super Woman the rise of transnational networks of trafficking in women and children and a new international Jihadism This suggests that patriarchy is indeed a Hydra a multi headed monster that grows several new heads every time one head is cut off Since different often hybrid heads of patriarchy dominate in different settings feminism requires a variety of strategies Women s movements all over the world today are critically creating new models of self and society in their own contexts Drawing on notions of Beauvoir as well as Michel Foucault this book outlines a feminism in a new key which consists of women s various freedom practices each hunting the Hydra in their own key but with mutual support **Beyond Contributory Pensions** Rafael Rofman,Ignacio Apella,Evelyn Vezza,2014-12-03 Many

Latin American countries in recent years have moved toward a more inclusive pensions system with expanded coverage of the elderly Given the difference in initial conditions objectives pursued and implementing capacity results have varied noticeably across countries *Children of Austerity* Bea Cantillon,Yekaterina Chzhen,Sudhanshu Handa,Brian Nolan,2017-04-07 The 2008 financial crisis triggered the worst global recession since the Great Depression Many OECD countries responded to the crisis by reducing social spending Through 11 diverse country case studies Belgium Germany Greece Hungary Ireland Italy Japan Spain Sweden United Kingdom and the United States this volume describes the evolution of child poverty and material well being during the crisis and links these outcomes with the responses by governments The analysis underlines that countries with fragmented social protection systems were less able to protect the incomes of households with children at the time when unemployment soared In contrast countries with more comprehensive social protection cushioned the impact of the crisis on households with children especially if they had implemented fiscal stimulus packages at the onset of the crisis Although the macroeconomic shock itself and the starting positions differed greatly across countries while the responses by governments covered a very wide range of policy levers and varied with their circumstances cuts in social spending and tax increases often played a major role in the impact that the crisis had on the living standards of
