Policy Making and Implementation Ronald James May,2009-09-01 There is a vast literature on the principles of public
administration and good governance and no shortage of theoreticians practitioners and donors eager to push for public
sector reform especially in less developed countries Papua New Guinea has had its share of public sector reforms frequently
under the influence of multinational agencies and aid donors Yet there seems to be a general consensus both within and
outside Papua New Guinea that policy making and implementation have fallen short of expectations that there has been a
failure to achieve good governance This volume which brings together a number of Papua New Guinean and Australian based
scholars and practitioners with deep familiarity of policy making in Papua New Guinea examines the record of policy making
and implementation in Papua New Guinea since independence It reviews the history of public sector reform in Papua New
Guinea and provides case studies of policy making and implementation in a number of areas including the economy
agriculture mineral development health education lands environment forestry decentralization law and order defence women

and foreign affairs privatization and AIDS Policy is continuously evolving but this study documents the processes of policy making and implementation over a number of years with the hope that a better understanding of past successes and failures will contribute to improved governance in the future
