implementation and practice of information systems and technology in organizations This book is beneficial for business people undergraduate students postgraduate candidates and researchers looking to gain a more in depth understanding of the influence of socio technical factors on ICT operations Student-Teacher Interaction in Online Learning Environments

Wright, Robert D.,2014-09-30 As face to face interaction between student and instructor is not present in online learning environments it is increasingly important to understand how to establish and maintain social presence in online learning Student Teacher Interaction in Online Learning Environments provides successful strategies and procedures for developing policies to bring about an awareness of the practices that enhance online learning This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance interaction and a sense of community for all participants in an online arena This book is of essential use to online educators administrators researchers and students **Mergers and Alliances in Higher Education** Adrian Curaj,Luke

Georghiou,Jennifer Cassingena Harper,Eva Egron-Polak,2015-03-31 This volume casts light on mergers and alliances in higher education by examining developments of this type in different countries It combines the direct experiences of those at the heart of such transformations university leaders and senior officials responsible for higher education policy with expert analysts of the systems concerned Higher education in Europe faces a series of major challenges The economic crisis has accelerated expectations of an increased role in addressing economic and societal challenges while at the same time putting pressure on available finances Broader trends such as shifting student demographics and expectations globalisation and mobility and new ways of working with business have contributed to these increased pressures In the light of these trends there have been moves both from national or regional agencies and from individual institutions to respond by combining resources either through collaborative arrangements or more fundamentally through mergers between two or more universities After an introductory chapter by the editors which establishes the context for mergers and alliances the book falls into two main parts Part 1 takes a national or regional perspective to give some sense of the historical context the wider drivers and the importance of these developments in these cases Included are both systemic accounts for countries as France Sweden Romania Russia Wales and England and specific cross cutting initiatives including a major facility at Magurele in Romania and a Spanish programme for promoting international campuses of excellence Part 2 is built from specific cases of universities either in mergers or alliances with examples from different countries such as France UK Romania Spain Germany Denmark Finland Switzerland A concluding chapter by the editors assesses these experiences and indicates the implications and future needs for understanding in this domain **Socio-ecological-economic reflections on the**

impacts of COVID-19 in Africa Willie Chinyamurindi,Philani Moyo,2025-02-28 This scholarly book magnifies reflections from young scientists in South Africa Africa and beyond around the COVID 19 pandemic With contributions by upcoming scientists this scholarly book provides a synopsis of socio ecological economic views on the impact of COVID 19 Through its

chapters the book takes a multi disciplinary approach to reflecting on what it was like to be a scientist during the COVID 19 pandemic By doing so each chapter re imagines science from the viewpoint of its discipline offering insights from the perspective of young scientists that could benefit other scholars academics and policymakers *Decolonisation after Democracy* Laurence Piper,2020-05-21 *Decolonisation after Democracy* addresses the provocative idea that we need to rid higher education of lingering forms of colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of *Politikon* Maximizing Healthcare Delivery and Management through Technology Integration Iyamu, Tiko,2015-09-08 Improvements in health services require continual attention and dedication to ensure proper care and treatment for citizens To support this endeavor professionals rely more and more on the application of information systems and technologies to promote the overall quality of modern healthcare *Maximizing Healthcare Delivery and Management through Technology Integration* is an authoritative reference source for the latest scholarly research on the integration of ICT within the health services sector Featuring comprehensive coverage on a range of topics from technical and non technical perspectives this book is an essential reference source for IT specialists professionals managers and students seeking current research on the growing relationship between technology and healthcare **International Education** Daniel Ness,Chia-Ling Lin,2015-03-17 This encyclopedia is the most current and exhaustive reference available on international education It provides thorough up to date coverage of key topics concepts and issues as well as in depth studies of approximately 180 national educational systems throughout the world Articles examine education broadly and at all levels from primary grades through higher education formal to informal education country studies to global organizations *The A to Z of Careers in South Africa* ,2006 Rediscovering the Essentiality of Marketing Luca Petruzzellis,Russell S. BRICS and Resistance in Africa Justin van der Merwe, Patrick Bond, Nicole Dodd, 2019-10-15 Though initially considered a welcome counterweight to Western interest across Africa the BRICS are increasingly being viewed as another example of foreign interference and exploitation BRICS and Resistance in Africa explores the varied forms of African resistance being developed in response to the growing influence of the BRICS Its case studies cover such instances as the opposition to China s One Belt One Road initiative in East Africa resistance to the BRICS oil activities in the Niger Delta and the role of the BRICS in Zimbabwe s political transition The contributors expose

the contradictions between the group's rhetoric and its real impact as well as the complicity of local elites in serving as proxies for the BRICS nations. By challenging and expanding the debates surrounding BRICS involvement in Africa, this collection offers new insight into resistance to globalization in the global South.

Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines Management Association, Information Resources, 2021-12-30. Research methodology is as old as academia itself. Research methodology shifts in strategy as it crosses different disciplines and theories. This too is true with the shifting landscape of research opportunities and technologies available to global researchers. To achieve the most accurate and substantial research, it is important to be knowledgeable of emerging research methodologies. The *Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines* discusses the most recent global research innovations made across multiple fields. This anthology further discusses how these research methodologies can be applied to a variety of specific fields. Covering topics such as creative thinking, qualitative research, and the research method landscape, this book is essential for students and faculty of higher education, scientists, researchers, sociologists, computer scientists, and academicians.

Handbook of Research on Advocacy, Promotion, and Public Programming for Memory Institutions Ngulube, Patrick, 2019-01-11. Memory institutions such as archives, libraries, and museums collect, arrange, describe, and preserve their collections and holdings in order to make them accessible to the community. However, these institutions remain underutilized and are struggling to raise awareness of their existence and attract users and funders. The *Handbook of Research on Advocacy, Promotion, and Public Programming for Memory Institutions* is a collection of innovative research on emerging strategies such as advocacy, outreach, marketing, and public programming to promote memory institutions and engage the community. While highlighting topics including customer service, solutions, social media, and collection development strategies, this book is ideally designed for heritage management and information professionals, curators, museum management, archival specialists, librarians, policymakers, researchers, and academicians.

Handbook of Research on Connecting Research Methods for Information Science Research Ngulube, Patrick, 2019-12-13. In today's globalized world, viable and reliable research is fundamental for the development of information. Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science. Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge. The *Handbook of Research on Connecting Research Methods for Information Science Research* is a collection of innovative research on the methods and application of study methods within library and information science. While highlighting topics including data management, philosophical foundations, and quantitative methodology, this book is ideally designed for librarians, information science professionals, policymakers, advanced level students, researchers, and academicians seeking current research on transformative methods of research within information science.

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate

the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment *ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management* " Vladlena Benson, Fragkiskos Filippaios, 2016-05-20
