transgression in recent Anglo American children s literature and in the emerging children s literature of 1960s Taiwan Part III s essays engage in ethical criticism of arguably problematic messages about our relationship to nonhuman animals about war and about prejudice The final section considers how we respond to children s literature with ethically focused essays exploring a range of ways in which child readers and adult authorities react to children s literature Even as children s literature has evolved in opposition to its origins in didactic Sunday school tracts and moralizing fables authors parents librarians and scholars remain sensitive to the values conveyed to children through the texts they choose to share with them
