The Law and the Prophets Daniel R. Magaziner, 2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in *The Law and the Prophets* the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country's best known antiapartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore how and why *The Law and the Prophets* is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous antiapartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period might we begin to understand the dramatic changes that took place

Faith, Hope and Determination DANIEL J. Council in 1979 for sedition Arguing that the political trial was perhaps the only venue where white ideology had to engage directly with black protest this original and thought provoking account demonstrates how the trials became platforms for competing views of society and politics which give a unique insight into the conflict between the political ideals held by blacks and whites in this era It also reveals how large a part politics played in securing the conviction of many dissenters and how large a part events beyond the courtroom played in the detention and torture of many activists Debates of the Senate (Hansard) South Africa.
