Y A-t-il Une Question De Limage En Islam:

Y A-t-il Une "question de L'image en Islam" ? .,2013 *Y a-t-il une "question de l'image" en Islam ?* Silvia Naef,2015-03-15 Cette nouvelle édition entièrement mise à jour traite d'une des idées reçues sur l'Islam celle d'une civilisation sans images Or si l'image a-t-elle effectivement bannie du culte et des lieux de prière elle n'en a pas moins existé sous des formes multiples Le livre offre un bref parcours chronologique et géographique soulignant cette diversité en rupture avec une vision orientaliste d'un art islamique immuable **Le monde islamique et l'image** Dominique Clévenot, Isabelle Touton,2001

Y A-t-il Une Question de L'image en Islam ? Silvia Naef Silvia Naef,2016 **Religion, Media, and Marginality in Modern Africa** Felicitas Becker, Joel Cabrita, Marie Rodet,2018-02-02 In recent years anthropologists historians and others have been drawn to study the profuse and creative usages of digital media by religious movements At the same time scholars of Christian Africa have long been concerned with the history of textual culture the politics of Bible translation and the status of the vernacular in Christianity Students of Islam in Africa have similarly examined politics of knowledge the transmission of learning in written form and the influence of new media Until now however these arenas Christianity and Islam digital media and old media have been studied separately Religion Media and Marginality in Modern Africa is one of the first volumes to put new media and old media into significant conversation with one another and also offers a rare comparison between Christianity and Islam in Africa The contributors find many previously unacknowledged correspondences among different media and between the two faiths In the process they challenge the technological determinism the notion that certain types of media generate particular forms of religious expression that haunts many studies In evaluating how media usage and religious commitment intersect in the social cultural and political landscapes of modern Africa this collection will contribute to the development of new paradigms for media and religious studies Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pype and Asonzeh Ukah The Image of the Prophet between Ideal and Ideology Christiane J. Gruber, Avinoam Shalem,2014-10-24 Disziplinäre Grenzen überschreitend zielt der Band darauf ab die Visualisierung Mohammeds in der westlichen Welt vis vis mit dessen Darstellung im Islam zu untersuchen Dabei wird das Material weder geographischen oder sprachlichen Sphären zugeordnet noch werden Textquellen isoliert von bildlichen Darstellungen betrachtet Die Beiträge eröffnen vielmehr einen thematischen und theoretischen Dialog über die Frage wie der Prophet in verschiedenen kulturellen Traditionen in Europa und Amerika und in der Welt des Islam vom Mittelalter bis in die Gegenwart vergegenwärtigt wurde **Hermeneutics of the Ban on Images, The** Hartenstein, Friedhelm, Moxter, Michael,2021 Recognizing both the potential of biblical prohibition of images for causing religious conflict and the promise of a more nuanced appreciation of the role of images in human experience this book constructs a framework for understanding the place of images and their prohibition within the biblical text and Christian religious practice **Getting the Picture** Jason E. controversial news pictures promise to make the world at once immediate and knowable Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms For the first time this volume defines what counts as a news picture how pictures are selected and distributed where they are seen and how we critique and value them Presenting the best new thinking on this fascinating topic this book considers the news picture over time from the dawn of the illustrated press in the nineteenth century through photojournalism s heyday and the rise of broadcast news and newsreels in the twentieth century and into today s digital platforms It examines the many kinds of images sport fashion society celebrity war catastrophe and exoticism and many mediums including photography painting wood engraving film and video Packed with the best research and full colour illustrations throughout this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture

Triumph and Trauma of Images Jacques Picard, 2025-03-31 What humankind consider to be truths does not enter our world naked Rather it was and is expressed in symbols images archetypes and role models As an ingredient of emotions of religious cultic or collective orders art and artists in particular played an important role in the transformation of our world To be tainted by the stigma of cult and idolatry or to enable life and works of art through the incarnation of ideas and visions such contradictions continue to this day in the dispute over the power of images Their triumph as a mark of sovereignty goes hand in hand with the trauma they trigger in both individuals and communities They evoke the horror and the sacred and banish both at the same time They are attributed a cultic aura and likewise suspected of being a false fetish in a world of globally traded commodities From antiquity to modernity these facets and tensions are critically explored in Judaism Christianity and Islam as well as in philosophical discourses and secular ways of life Our cultural history refers the viewer to the democratic or authoritarian present Images of hope and resurrection the fall into hell of war and the abys of the Holocaust are significant for human memory in art and media today and they require our reflection Look inside Images of the authentic and betrayal through images art image controversy and cult prohibition in cultures since antiquity Weighing souls the Last Judgement and the Resurrection Jewish Christian profane and critical arguments Hopes and the plunge into hell in modernity Crises catastrophes and the Holocaust in the commemorative cultures of modernity

Dans le laboratoire de l'historien des religions Francesca Prescendi, Youri Volokhine, 2011 **Iconoclasm and Iconoclash** Willem van Asselt, Paul van Geest, Daniela Müller, Theo Salemink, 2007-09-30 This book focuses on iconoclastic controversies and in particular their impact on the creation of religious identities In the history of Jewish Christian and Muslim culture religious identity was not only formed through historical claims but also through the use of certain images images of God images of the others and images of the self Moreover in the struggle for religious identity these images were time and again employed for the purpose of establishing distinct groups both orthodox and deviant At the same time they supplied weapons in the theological debate and found explicit expression in certain rituals or liturgical traditions These conference proceedings include a discussion of the role of images in society politics theology and liturgy in particular addressing the iconoclash of physical mental and verbal images on the construction of religious identity **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair, C. H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies Naming the Sacred Anna Mambelli, Valentina Marchetto, 2019-05-20 At what point is a place perceived as holy And when does it become officially so in its definition Inspired by the UNESCO debate and decisions made concerning holy places the authors seek answers to these questions Naming the Sacred is a diachronic excursus into the issues of perception and denomination of holy places The volume examines historical cases in which names and places have been modified or literally eliminated and others where places were subject to policies of protection and tutelage The work appertains to an ongoing evolving global debate where the challenge of the reciprocal recognition of holy sites has become increasingly complex *Practicing Sufism*

Abdelmajid Hannoum, 2016-07-15 Islam in Africa is deeply connected with Sufism and the history of Islam is in a significant way a history of Sufism Yet even within this continent the practice and role of Sufism varies across the regions This interdisciplinary volume brings together histories and experiences of Sufism in various parts of Africa offering case studies on several countries that include Morocco Algeria Senegal Egypt Sudan Mali and Nigeria It uses a variety of methodologies ranging from the hermeneutical through historiographic to ethnographic in a comprehensive examination of the politics and performance of Sufism in Africa While the politics of Sufism pertains largely to historical and textual analysis to highlight paradigms of sanctity in different geographical areas in Africa the aspect of performance adopts a decidedly ethnographic approach combining history history of art and discourse analysis Together analysis of these two aspects reveals the many faces of Sufism that have remained hitherto hidden Furthering understanding of the African Islamic religious scene as well as contributing to the study of Sufism worldwide this volume is of key interest to students and scholars of Middle Eastern African and Islamic studies

Images du Maghreb, images au Maghreb Omar Carlier, 2010-09-01 Au Maghreb partir d'une large gamme de techniques et de vecteurs mobilisant divers acteurs sociaux faisant surgir et interagir image fixe et image animée s'est effectuée la mise en place d'une esthétique nouvelle fruit d'une importation allogène et d'une invention indigène Le Maghreb mal connu totalement réfractaire la reproduction picturale du vivant a fait progressivement sien l'usage moderne des images puis a commencé produire des images de lui-même en se réinventant travers elles

The Other Shiites Alessandro Monsutti, Silvia Naef, Farian Sabahi, 2007 Shia Islam is a central issue in contemporary politics Often associated with Iran Shiite communities actually exist in many Islamic countries Focusing on the other Shiites outside Iran this book offers a survey of their diversity and multiplicity in the last two centuries The contributions cover three major topics The first part deals with the relationship of Shia minorities to the Sunni regimes Secondly the public affirmation of their identities through specific rituals and social attitudes is analysed Finally the third part of this volume examines the strengthening of these identities through traditional religious rituals and cultural performances or through the reinterpretation and adaptation of these to present day life Coming from various academic backgrounds the authors have used different methodologies and have been engaged in field work

Des cultures et des Dieux Jean-Christophe Attias, Esther Benbassa, 2007-09-19 Attentats du 11 septembre 2001 choc des civilisations revendications communautaristes appels nouveaux de spiritualité Face cette explosion de phénomènes et de discours les Français tant anticléricaux tant très peu ou mal formés la culture religieuse se sentent parfois désorientés Ce livre leur fournira certaines des clés qui leur manquent Judaïsme christianisme et islam s'y taillent une part importante parce qu'ils ont marqué l'histoire de l'Europe Mais traditions d'Afrique d'Asie ou d'Amérique et nouveaux mouvements religieux sont aussi abordés Outre leur intérêt intrinsèque notre passé colonial les grandes migrations de l'époque contemporaine la diffusion en Occident des sagesses orientales l'imposaient Ni apologétique ni dépréciateur ne cultivant ni l'irénisme ni le goût du sensationnel ce travail d'équipe conçu et conduit avec brio par Jean-Christophe Attias et Esther

Benbassa se veut non confessionnel et distancié. Il porte une attention particulière aux phénomènes de contact de conflit mais aussi d'imprégnation mutuelle entre religions différentes sans oublier l'histoire des laïcités et les processus de sécularisation. L'étude passionnée des faits religieux est une fenêtre privilégiée sur la diversité des cultures. Elle est en même temps une invite au dialogue et la compréhension réciproque. Simples curieux, parents, enseignants, étudiants, lycéens, jeunes et moins jeunes sauront faire de ce livre l'usage qui leur convient. Puisse-t-il devenir entre leurs mains un modeste mais efficace outil de liberté.
