Agents of Subversion John P. Delury,2022-10-15 *Agents of Subversion* reconstructs the remarkable story of a botched mission into Manchuria showing how it fit into a wider CIA campaign against Communist China and highlighting the intensity and futility of clandestine operations to overthrow Mao In the winter of 1952 at the height of the Korean War the CIA flew a covert mission into China to pick up an agent Trained on a remote Pacific island the agent belonged to an obscure anti communist group known as the Third Force based out of Hong Kong The exfiltration would fail disastrously and one of the Americans on the mission a recent Yale graduate named John T Downey ended up a prisoner of Mao Zedong s government for the next twenty years Unraveling the truth behind decades of Cold War intrigue John Delury documents the damage that this hidden foreign policy did to American political life The US government kept the public in the dark about decades of covert activity directed against China while Downey languished in a Beijing prison and his mother lobbied desperately for his release Mining little known Chinese sources Delury sheds new light on Mao s campaigns to eliminate counterrevolutionaries and how the chairman of the Chinese Communist Party used captive spies in diplomacy with the West *Agents of Subversion* is an innovative work of transnational history and it demonstrates both how the Chinese Communist regime used the fear of special agents to tighten its grip on society and why intellectuals in Cold War America presciently worried that subversion abroad could lead to repression at home **Carpentry and Building** ,1893 **August 2022 - Surplus Record**

Neoliberalism and U.S. Foreign Policy Catherine V. Scott,2018-01-23 While there has been a flood of scholarly efforts to extend adapt and revise Foucault s exploration of the emergence and operations of neoliberalism the study of foreign policy has remained steeped in the analysis of partisanship institutions policies and personality and their influence on various issue areas toward particular countries or specific presidential doctrines This book brings the political rationality of neoliberalism to bear on U S foreign policy in two distinct ways First it challenges complicates and revises the numerous interpretations of

U S nationalism that posit a homologous relationship between 1898 and contemporary nationalism instead arguing that alterations in the operations of capitalism and its correlative forms of governance have produced a differently formatted nationalism which in turn has produced different operations of U S hegemony in the twenty first century that markedly depart from earlier eras Second this book argues for a new timeline one that starts with the Carter Reagan era and the crisis of capitalism ultimately encouraging us to think beyond particular presidencies wars bureaucratic politics and policies in order to train our sights on how long term and sustained shifts in the economy and attendant government practices have emerged to produce new myths of exceptionalism that more fully cohere with the neoliberal foundations of the U S nation state
