Classics in Institutional Economics, Part II, Volume 9 Warren J Samuels, Malcolm Rutherford, 2024-08-23 By the time of the interwar years the varied approaches often grouped together under the banner of Institutionalism had become firmly established as one of the most influential schools of thought in American economics This is a collection of writings on the topic

The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate

Child Sexual Abuse Celia Doyle, 2013-12-14 The inspiration for much of my writing comes from my direct work with abused children and their families However I was prompted to write this book by my experiences as a lecturer in child protection training for a variety of professional workers I realized from the anxious questions asked and feelings expressed that despite the fact that many professionals are unlikely to encounter a high incidence of child sexual abuse cases in the course of their careers the subject is one that provokes considerable concern confusion and distress While front line investigative personnet such as child care social workers specialist police officers police surgeons and paediatricians have a number of anxieties about working with child sexual abuse cases they can usually avail themselves of specific training detailed books and articles and the support of experienced colleagues to help sustain them through any difficulties It is non investigating workers on the periphery of child protection work many of whom are health professionals who are left feeling worried and vulnerable They may encounter only one or two cases of child sexual abuse during their careers and because the numbers they have to work with are small their employers perhaps understandably are reluctant to give them any special training in child protection work

Germany and the Second World War Volume IX/II Jörg Echternkamp, 2014-03 Volume IX II of this series draws on a range of historical sources to explore the effect that the Second World War had on the people of Germany whether they were practically involved in the war effort or struggling to maintain a normal existance
