

UC PERSONAL STATEMENT EXAMPLE

From a Passion for Music to a Drive for Social Justice

As I sat in my elementary school auditorium, the orchestra's sound enveloped me, and I knew I wanted to become a musician. Through years of hard work and dedication, I achieved my dream of becoming a talented pianist. However, through my experiences with music, I discovered a passion for social justice.

As a teenager, I started playing music at community events and fundraisers. Through these events, I learned about the challenges faced by marginalized communities and the power of community organizing. I was inspired by how music brought people together and became a tool for creating change. I began to see music as more than just entertainment; it was a means for advocacy and social action.

My passion for social justice led me to explore different opportunities to get involved in my community. I started volunteering at local organizations focusing on affordable housing, education access, and immigrant rights. I was inspired by the resilience of those fighting for their rights and the importance of advocacy.

When it came time to choose a major, I knew I wanted to pursue a field that would allow me to continue my passion for music while giving me the tools to create social change. This led me to the interdisciplinary field of music and social justice. Through this program, I have explored the connections between music, activism, and social justice. I have learned how music can be used as a tool for social change, and I have applied this knowledge through my work with local organizations.

My experiences have also taught me the importance of working across disciplines to create change in addition to my music courses in sociology, anthropology, and political science. I have learned how different fields intersect and how we can use these intersections to create change.

As I look toward the future, I hope to continue pursuing my passion for music and social justice. In addition, I am excited to explore using my skills to make a difference in my community and beyond. Through my studies at UC, I hope to gain the tools and knowledge necessary to create real change and make a difference in the world.
