Somewhere Over The Rainbow:

Poems of the Heart Will Amacher, 2025-01-10 I personally believe that God desires for all of us to walk with Him in the garden that He designed before us as Adam did in the day where he can come before God and enjoy the presence of the Lord Even in the cool of the day where Adam spent time with the Lord face to face there was a thorn among this beautiful garden We all know that this thorn as the tree where God told them not eat of it As Christians and unbelievers desiring to join God in our gardens we each have to deal with different thorns So as people going through life each at different levels many of us struggle with different thorns These thorns like to tear us down and to bring us to a place where we lose focus on spending time with God in our gardens We all need to come to a place where we can allow God to speak to us and it is my prayer that these words of poetry of inspiration of love faith and of the Word causes you to declare your victory over every thorn that tries to draw blood from you Let these words of love bring you back into the garden where you can enjoy your walk with God your Heavenly Father and experience His amazing love toward you He is waiting for in the cool of the day in your garden

Making Waves Frederick Lau, Christine R. Yano, 2018-02-28 Musical sounds are some of the most mobile human elements crossing national cultural and regional boundaries at an ever increasing pace in the twentieth and twenty first centuries Whole musical products travel easily though not necessarily intact via musicians CDs and earlier cassettes satellite broadcasting digital downloads and streaming The introductory chapter by the volume editors develops two framing metaphors traveling musics and making waves The wave making metaphor illuminates the ways that traveling musics traverse flows of globalization and migration initiating change and generating energy of their own Each of the nine contributors further examines music its songs makers instruments aurality aesthetics and images as it crosses oceans continents and islands In the process of landing in new homes music interacts with older established cultural environments sometimes in unexpected ways and with surprising results They see these traveling musics in Hawai'i Asia and the Pacific as making waves that is not only riding flows of globalism but instigating ripples of change What is the nature of those ripples What constitutes some of the infrastructure for the wave itself What are some of the effects of music landing on transported to or appropriated from distant shores How does the Hawai'i Asia Pacific context itself shape and get shaped by these musical waves The two poetic and evocative metaphors allow the individual contributors great leeway in charting their own course while simultaneously referring back to the influence of their mentor and colleague Ricardo D Trimillos whom they identify as the wave maker The volume attempts to position music as at once ritual and entertainment esoteric and exoteric tradition and creativity within the cultural geographies of Hawai'i Asia and the Pacific In doing so they situate music at the very core of global human endeavors
