Life Metaphor Poem

Example:

**Life is a piece of bubble gum. It starts off
fresh and juicy, with plenty of zip
and gallons of give, and a million bubbles just
waiting to be popped!
But then, the taste goes sour and turns to glue.
It sticks to your teeth and tightens your jaws.
And the only thing to do is toss it in the trash.**

Example:

**Life is a sleek cat with padded paws.
I scratch his neck and he purrs loudly.
Playfully he rolls over on his back
and I tickle his stomach.
He pretends to fight my hand, and I laugh.
Suddenly his claws reach out and slash my fingers.
His teeth rip my flesh.
He turns and darts away
and leaves me wondering.**

Readings in the Aesthetics of Sport Harold Thomas Anthony Whiting,D. W. Masterson,1974 **Religion and Sports in American Culture** Jeffrey Scholes,Raphael Sassower,2014-01-03 Religion and Sports in American Culture explores the relationship between religion and modern sports in America Whether found in the religious purpose of ancient Olympic Games in curses believed to plague the Chicago Cubs or in the figure of Tim Tebow religion and sports have been and are still tightly intertwined While there is widespread suspicion that sports are slowly encroaching on the territory historically occupied by religion Scholes and Sassower assert that sports are not replacing religion and that neither is sports a religion Instead the authors look at the relationship between sports and religion in America from a post secular perspective that looks at both discourses as a part of the same cultural web In this way each institution is able to maintain its own integrity legitimacy and unique expression of cultural values as they relate to each other Utilizing important themes that intersect both religion and sports Scholes and Sassower illuminate the complex and often publicly contentious relationship between the two Appropriate for both classroom use and for the interested non specialist Religion and Sports in American Culture brings pilgrimage sacrifice relics and redemption together in an unexpected cultural continuity

Reading & Writing about Literature Edward Proffitt,1990 In the Middle Nancie Atwell,1987 Relates the experiences of an eighth grade teacher and her students who abandoned skill drill approaches and became collaborating readers and writers *What If Jack Wasn't So Nimble* Colin McNairn,2022-04-27 Bridging the gap between humour and poetry this collection of 64 reimagined nursery rhymes will conjure up memories of verses learned in childhood Each of the author s new rhymes is built upon elements of a Mother Goose original Familiar characters make their appearance but their relatable experience is freshly conceived for example Humpty Dumpty equivocates by sitting on a fence and avoids falling off a wall Betty Blue without a benefactor to replace her lost shoe adapts with the aid of a crutch to life with only one shoe and The Three Little Kittens are upset not from the loss of their mittens but because their mother s milk has run dry and she fails to arrange for a new supply Some modern twists are added as the reimagined nursery rhymes focus on subjects of contemporary interest and concern such as the law business electronic communications air travel and politics none of which drew the attention of Mother Goose This collection is a follow up to the author s previous collection of light verse titled Signs of the Times through Reimagined Nursery Rhymes Between the two books the author has reconceived over 130 of Mother Goose s original nursery rhymes approaching the full complement of her contribution to children s literature

The Poems of Robert Browning: Volume Six John Woolford, Daniel Karlin, Joseph Phelan, 2022-06-30 The Ring and the Book published serially in 1868-9 is one of the most daring and innovative poems in the English language. The story is based on the trial of an Italian nobleman Guido Franceschini for the murder of his wife Pompilia in Rome in 1698. Browning's discovery of the old yellow book, a bundle of legal documents and letters relating to the trial on a second-hand market stall in Florence, sparked an imaginative engagement with this sordid tale of domestic cruelty, adultery, and greed which grew through four years of arduous labour into an epic populated not by gods and warriors but by concrete, recognizably human beings. Fusing the technique of the dramatic monologue, the form he had made his own with the grandeur of classical epic and the vivid realism of the modern novel, Browning created a unique hybrid form that allowed him not only to bring to life an entire historical period but also to reflect on the process of artistic creation itself: the forging of the golden ring of the poem from the pure, crude fact of its historical original. This edition, comprising volumes 5 and 6 in the acclaimed Longman Annotated English Poets edition of Browning's poems, does full justice to the scope and depth of Browning's achievement. The headnote in volume 5 gives an authoritative account of the poem's composition, publication, sources, and reception, making use of hitherto unpublished letters and textual material. In addition to giving readers help where needed with historical and linguistic comprehension, the notes track Browning's formidable range of allusion from the most erudite to the most vulgar. The appendices in volume 6 present a selection from the original sources, a list of variants from extant proofs, and key passages from Browning's fascinating and revealing correspondence with one of the earliest readers of the poem, Julia Wedgwood. The aim is to enable readers not just to understand the poem as an object of study but to take pleasure in its abounding intellectual and emotional energies.

Signs and Society Richard J. Parmentier, 2016-10-03 A major voice in contemporary semiotic theory offers a new perspective on potent intersections of semiotic and linguistic anthropology. In *Signs and Society*, noted anthropologist Richard J. Parmentier demonstrates how an appreciation of signs helps us better understand human agency, meaning, and creativity. Inspired by the foundational work of C. S. Peirce and Ferdinand de Saussure and drawing upon key insights from neighboring scholarly fields, Parmentier develops an array of innovative conceptual tools for ethnographic, historical, and literary research. Parmentier's concepts of transactional value, metapragmatic interpretant, and circle of semiosis, for example, illuminate the foundations and effects of such diverse cultural forms and practices as economic exchanges on the Pacific island of Palau, Pindar's Victory Odes in ancient Greece, and material representations of transcendence in ancient Egypt and medieval Christianity. Other studies complicate the separation of emic and etic analytical models for such cultural domains as religion, economic value, and semiotic ideology. Provocative and absorbing, these fifteen pioneering essays blaze a trail into anthropology's future while remaining firmly rooted in its celebrated past.

Fast Break to Line Break Todd Davis, 2012-02-01 If baseball is the sport of nostalgic prose, basketball's movement myths and culture are truly at home in verse. In this extraordinary collection of essays, poets meditate

on what basketball means to them how it has changed their perspective on the craft of poetry how it informs their sense of language the body and human connectedness how their love of the sport made a difference in the creation of their poems and in the lives they live beyond the margins Walt Whitman saw the origins of poetry as communal oral myth making The same could be said of basketball which is the beating heart of so many neighborhoods and communities in this country and around the world On the court and on the page this poetry in motion can be a force of change and inspiration leaving devoted fans wonderstruck

Stylistic Approaches to Translation Jean Boase-Beier, 2014-06-03 The concept of style is central to our understanding and construction of texts But how do translators take style into account in reading the source text and in creating a target text This book attempts to bring some coherence to a highly interdisciplinary area of translation studies situating different views and approaches to style within general trends in linguistics and literary criticism and assessing their place in translation studies itself Some of the issues addressed are the link between style and meaning the interpretation of stylistic clues in the text the difference between literary and non literary texts and more practical questions about the recreation of stylistic effects These various trends approaches and issues are brought together in a consideration of the most recent cognitive views of style which see it as essentially a reflection of mind Underlying the book is the notion that knowledge of theory can affect the way we translate Far from being prescriptive theories which describe what we know in a general sense can become part of what an individual translator knows thus opening the way for greater awareness and also greater creativity in the act of translation Throughout the discussion the book considers how insights into the nature and importance of style might affect the actual translation of literary and non literary texts
