Interior, Environment, and Related Agencies Appropriations for 2017: Justification of the budget estimates: Related agencies United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies, 2016 *An Investment Framework for Nutrition* Meera Shekar, Jakub Kakietek, Julia Dayton Eberwein, Dylan Walters, 2017-04-24 An Investment Framework for Nutrition Reaching the Global Targets for Stunting Anemia Breastfeeding and Wasting estimates the costs impacts and financing scenarios to achieve the World Health Assembly global nutrition targets for stunting anemia in women exclusive breastfeeding and the scaling up of the treatment of severe wasting among young children To reach these four targets the world needs US 70 billion over 10 years to invest in high impact nutrition specific interventions This investment would have enormous benefits 65 million cases of stunting and 265 million cases of anemia in women would be prevented in 2025 as compared with the 2015 baseline In addition at least 91 million more children would be treated for severe wasting and 105 million additional babies would be exclusively breastfed during the first six months of life over 10 years Altogether achieving these targets would avert at least 3.7 million child deaths Every dollar invested in this package of interventions would yield between US 4 and US 35 in economic returns making investing in early nutrition one of the best value for money development actions Although some of the targets

especially those for reducing stunting in children and anemia in women are ambitious and will require concerted efforts in financing scale up and sustained commitment recent experience from several countries suggests that meeting these targets is feasible These investments in the critical 1000 day window of early childhood are inalienable and portable and will pay lifelong dividends not only for children directly affected but also for us all in the form of more robust societies that will drive future economies

House of Commons - European Scrutiny Committee - HC 683 Great Britain: Parliament: House of Commons: European Scrutiny Committee,2013-11-07 This is an assessment of each of the 129 measures subject to the United Kingdom's block opt out including the European Arrest Warrant This is an area of policy which is highly legally complex and politically sensitive Yet the Government has failed to provide the information Parliament needs to scrutinise these measures properly There are two sets of conclusions in the Report first the Committee asks detailed follow up questions on a number of the measures in question including the European Arrest Warrant Second the Government's overall approach is thoroughly analysed The Committee sees signs of incoherence in Government policy probably a consequence of coalition politics and observes that several of the explanations for the 35 measures the Government wants to rejoin appear to have been written as if the Government was not intending to rejoin them and vice versa The Committee concludes that the House must be given the opportunity to vote on each of the measures the Government proposes to rejoin before formal negotiations with the European Commission and Council begin

External Powers and the Gulf Monarchies Jonathan Fulton,Li-Chen Sim,2018-09-03 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security but in response to regional events particularly the Arab Spring of 2011 they are pursuing more activist foreign policies which has allowed other international powers to play a larger role in regional affairs This book analyses the changing dynamic in this region with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra regional powers including the USA Russia China India Brazil Turkey Japan South Korea France and the United Kingdom At the theoretical level these case studies explore the extent to which

different international relations and international political economy theories explain change in these relationships as the regional political and security environment shifts Focusing on how and why external powers approach their relationships with the Gulf monarchies contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years Addressing an under analysed yet important topic the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra regional powers studied

Boot,2019-05-14 Contemporary Financial Intermediation 4th Edition by Greenbaum Thakor and Boot continues to offer a distinctive approach to the study of financial markets and institutions by presenting an integrated portrait that puts information and economic reasoning at the core Instead of primarily naming and describing markets regulations and institutions as is common Contemporary Financial Intermediation explores the subtlety plasticity and fragility of financial institutions and credit markets In this new edition every chapter has been updated and pedagogical supplements have been enhanced For the financial sector the best preprofessional training explains the reasons why markets institutions and regulators evolve they do why we suffer recurring financial crises occur and how we typically react to them Our textbook demands more in terms of quantitative skills and analysis but its ability to teach about the forces shaping the financial world is unmatched Updates and expands a legacy title in a valuable field Holds a prominent position in a growing portfolio of finance textbooks Teaches tactics on how to recognize and forecast fluctuations in financial markets **Beyond These Walls** Tony Platt,2019-01-08 You should definitely read this book What really struck me in reading Beyond These Walls was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis Beyond These Walls is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the

United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States Beyond These Walls traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally Beyond These Walls demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder
