The Role of Science Popularization in Science, Technology & Innovation Policy Akram Ghadimi, Hasan Jawaaid Khan, 2021-01-06 Popularisation of Science Technology and Innovation STI is a process of communicating and appropriating scientific and technological knowledge among broad sectors of the population This process however must contribute to an effective integration of a number of historical cultural political social and economic situations and make such knowledge a central component of the culture of social awareness and collective intelligence The possibilities of gaining access to information are changing our vision while transforming the relationship between human beings and the appropriation and dissemination of knowledge Today access to STI related knowledge is synonymous with development well being and improving quality of life In this context S while also making scientific and technological knowledge available to the ordinary citizen This book includes 14 papers contributed by researchers scientists experts and professionals from 9 different developing countries namely Bhutan Cuba India Iran Mauritius Nigeria Sri Lanka Togo and Zimbabwe And each paper gives significant insight into various policies and strategies that are being adopted or need to be adopted by the developing countries to ensure effective communication and popularisation of scientific knowledge **Sri Lanka Journal of Social Sciences** ,1986 *Handbook of Research on Knowledge and Organization Systems in Library and Information Science* Holland, Barbara Jane, 2021-06-25 Due to changes in the learning and research environment changes in the behavior of library users and unique global disruptions such as the COVID 19 pandemic libraries have had to adapt and evolve to remain up to date and responsive to their users Thus libraries are adding new digital resources and services while maintaining most of the old traditional resources and services New areas of research and inquiry in the field of library and information science explore the applications of machine learning artificial intelligence and other technologies to better serve and expand the library community The Handbook of Research on Knowledge and Organization Systems in Library and Information Science examines new technologies and systems and their application and adoption within libraries This handbook provides a global perspective on current and future trends concerning library and information science Covering topics such as machine learning library management ICTs blockchain technology social media and augmented reality this book is essential for librarians library directors library technicians media specialists data specialists catalogers information resource officers administrators IT consultants and specialists academicians and students **Ilaṅkaiṭ Tēciya Nūrpattiyal** ,2012-04 Abstracts of Papers ,1982 The Search for Justice Kumari Jayawardena, Kishali Pinto-Jayawardena, 2016-11-21 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of knowledge on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence

and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume examine history and contemporary politics to understand the root causes of sexual violence in Sri Lanka They look at the polarization created around ethnic and linguistic identities during the three decades of ethnic conflict but also scrutinize the routine violence of communities towards their own women in daily life The authors argue that in this transitional post war phase Sri Lankan women must not only be treated as victims but as agents of change The writers highlight a hitherto unaddressed aspect of sexual violence that of the structures that enable impunity on the part of perpetrators be they security personnel and paramilitary forces members of armed rebel groups gangs local politicians and police or ordinary citizens including close family members They demonstrate how impunity for perpetrators is both a failure of the formal justice process and a product of individual community and social conditions and indeed the choices that victims and families make that promote silence over truth At the end of more than a quarter century of conflict that has left some 100 000 dead 50 000 women headed households struggling to survive as well as countless victims and survivors of sexual violence the calls for justice can no longer be ignored
