Seeking Conviviality Samuel E. Ewell, 2019-12-30 Faith Seeking Conviviality traces the journey of a U S missionary into Brazil and beyond seeking to be faithfully present while also questioning the default settings of good intentions Taking Ivan Illich as the primary theological guide on that journey Faith Seeking Conviviality narrates the discovery of a renewed imagination for Christian mission that arises as a response to two persistent questions First given the colonial history of Christian missionary expansion on what basis do we go on fulfilling the Great Commission Matt 28:16-20 as Christ's disciples A second question intimately related to the first is What makes it possible to embody a distinctively Christian presence that is missionary without being manipulative In doing theology with and after Ivan Illich Faith Seeking Conviviality does not offer a pull off the shelf model for mission but rather a framework for embodying the incarnational logic of mission that entails a convivial turn delinking missionary discipleship from the lure of techniques and institutional dependence in order to receive and to share the peace of Christ relationally **Being Online** Jian Wang, 2021-10-05 A pioneer of cloud computing and big data offers his vision of the future world taking shape around us Jian Wang was the founder and architect of Alibaba's cloud and has been the driving force behind its technology innovations He was also the founder of the City Brain initiative to develop a new digital infrastructure for sustainable cities Being Online is his meditation on the moment we are in as the digital era shifts to the internet era spawning new innovations at a seemingly dizzying pace cloud computing 5G artificial intelligence big data wearables robots virtual reality the internet of things blockchain and more For Wang the invisible hand that connects them is being online The conjunction of computing data and the internet has erased the difference between being online and off When computing can be done in the cloud it is on the road to becoming a utility When data is connected making it big its usefulness multiplies exponentially in unforeseeable ways as does its value This moment will be as transformative for humanity as Henry Ford's production line Data is changing the nature of business Computing is reshaping the economy The cloud will help us do things we could never do before at scales that were previously impossible It will reshape our vision of the world as electrification once did and more recently the transition from analog to digital While telling the story of Alibaba's breakthroughs and the development of his own understanding of the internet Jian Wang's
