Abstract The purpose of this study was to determine the effect of a 12-week resistance training program on the strength and endurance of the lower extremities in healthy young adults. The subjects were 15 male and 15 female college students, aged 18-25, who were randomly assigned to either a resistance training group or a control group. The resistance training group performed a 12-week program of resistance training, while the control group performed no exercise. The subjects were tested at baseline and at the end of the 12-week program. The results showed that the resistance training group had significantly greater strength and endurance than the control group at the end of the 12-week program. The resistance training group also had significantly greater strength and endurance than the control group at baseline. The results of this study suggest that a 12-week resistance training program can improve the strength and endurance of the lower extremities in healthy young adults.

Sonicare Diamondclean User Manual:

R U Medically Curious? Dr. Larry Romane, 2016-04-07 If you're medically curious then you'll love the treasure trove of information that Dr. Larry Romane shares in this little book. This longtime ER doctor has always been surprised at how little people know about medical matters but he knows that knowledge can be challenging to grasp when doctors call a heart attack an acute myocardial infarction and a simple toothache an anaerobic gingival abscess. Romane cuts through that jargon to answer questions such as: Why is everyone getting diabetes? Are brand name medicines safer than generic versions? Do you need antibiotics for upper respiratory infections? He also shares valuable insights such as: A pound of fat contains about 3,500 calories; so cutting 100 calories every day for a year would take off about ten pounds. X-rays may cause future DNA changes in a cell leading to cancer decades in the future and only about five percent of dog bites get infected versus sixty percent of cat bites. Another reason a dog is man's best friend: You'll be surprised by all the medical information you don't know, some of it quite useful. **R U Medically Curious** **A Cultural History of Objects in the Modern Age** Laurie Wilkie, John

Chenoweth, 2022-08-31 *A Cultural History of Objects in the Modern Age* covers the period 1900 to today, a time marked by massive global changes in production, transportation, and information sharing in a post-colonial world. New materials and inventions, from plastics to the digital to biotechnology, have created unprecedented scales of disruption, shifting and blurring the categories and meanings of the object. If the 20th century demonstrated that humans can be treated like things whilst things can become ever more human, where will the 21st century take us? The 6-volume set of the *Cultural History of Objects* examines how objects have been created, used, interpreted, and set loose in the world over the last 2500 years. Over this time, the West has developed particular attitudes to the material world at the centre of which is the idea of the object. The themes covered in each volume are: objecthood, technology, economic objects, everyday objects, art, architecture, bodily objects, object worlds. Laurie A. Wilkie is Professor at the University of California Berkeley, USA. John M. Chenoweth is Associate Professor at the University of Michigan Dearborn, USA. Volume 6 in the *Cultural History of Objects* set. General Editors: Dan Hicks and William Whyte *Understanding Industrial Design* Simon King, Kuen Chang, 2016-01-20

With the coming flood of connected products, many UX and interaction designers are looking into hardware design, a discipline largely unfamiliar to them. If you're among those who want to blend digital and physical design concepts successfully, this practical book helps you explore seven long-standing principles of industrial design. Two present and former design directors at IDEO, the international design and innovation firm, use real-world examples to describe industrial designs that are sensorial, simple, enduring, playful, thoughtful, sustainable, and beautiful. You'll learn how to approach, frame, and evaluate your designs as they extend beyond the screen and into the physical world. Sensorial: create experiences that fully engage our human senses. Simple: design simple products that provide overall clarity in relation to their purpose. Enduring: build products that wear well and live on as classics. Playful: use playful design to go beyond functionality and create emotional connections. Thoughtful: observe people's

struggles and anticipate their needs Sustainable design products that reduce environmental impact Beautiful elevate the experience of everyday products through beauty **Fresh Meat** Jesse Armstrong and Sam Bain,2012-10-11 The ultimate companion to Fresh Meat the award winning Channel 4 comedy by Jesse Armstrong and Sam Bain What s the secret to JP s sexual prowess How does Howard beat the buffet every time What does Vod really think about drink drugs and Salman Rushdie And will Kingsley s diary spill his true feelings for Josie hopefully not as stomach churning as Oregon s sext messages with Professor Shales Edited by Oregon and with contributions from all of the housemates this is a real guide to student life the one the preachy brochures and prospectuses don t tell you about From moving into a student house to fresher s week from choosing courses to choosing friends the book records every detail hilarious sordid poignant and triumphant as the young ones stumble through university life A scrap book of diary entries manifestos diagrams and guidelines it includes JP s weekly shopping list and first Hollywood screenplay Josie s student recipes for Munge and Chunge Vod s literary criticism and hangover cure Howard s James Bond fan fiction Oregon s literary erotica and Kinglsey s band reviews and critique of the Ultimate Frisbee Society A worthy successor to The Inbetweeners the best programme about students since The Young Ones Daily Telegraph on FRESH MEAT I never thought I d enjoy reliving the abject horror of my student days quite as much as I have Guardian on Fresh Meat This book s main purpose is to encourage having a laugh but like the best laughs it is based on facts that ring true Evening Standard Jesse Armstrong and Sam Bain are British comedy writers who met whilst studying at Manchester University They have collaborated on acclaimed television comedy shows such as Smack the Pony Peep Show and That Mitchell and Webb Look and the films Magicians and Four Lions Jesse Armstrong also co wrote the BAFTA winning The Thick of It and In the Loop Fresh Meat won Best New Comedy at the British Comedy Awards in 2011
